MIT's Beaver Bonspiel 5 - Oct. 24, 1998

PLAYOFF:

Packet by Iowa

Tossups

1. Born in 1812 near Crawfordville, Georgia, he served as a Congressman from Georgia from 1843 until 1859, and became editor of the "Southern Sun" newspaper of Atlanta in 1871. In February, 1865, he led an unsuccessful peace commission which met with President Lincoln at Hampton Roads. FTP, name this vice-president of the Confederate States of America.

Answer: Alexander Hamilton Stephens

2. Meg Murray is having a tough year. Her father has disappeared while on a government project, her little brother Charles Wallace gets beat up every day at school, and her twin brothers Sandy and Dennys are too prosaic to be much help. Then one night a strange woman blows into the Murray kitchen with a storm, and Meg, Charles Wallace and Calvin O'Keefe are soon tessering across galaxies. FTP, name this Newberry award-winning book by Madeleine L'Engle.

Answer: A Wrinkle in Time

3. Why is this so? It seems you blend in with so many other ordinary things. & people tend to pass you over 'cause you're not standing out like flashy sparkles in the water- or stars in the sky. When I think it could be nicer being red, or yellow or gold- or something much more colorful like that instead of the color of the leaves. At the end, Kermit realizes it's all okay, but FTP what is this song called?

Answer: It's Not Easy Bein' Green

4. Two types of these include the foraminiferans and the radiolarians. Both live in marine climes and secrete shells about themselves. More common members of this phylum Sarcodina are found in lakes, ponds and other bodies of fresh water and sustain themselves by extending their cytoplasms into pseudopods and feeding through phagocytosis. For 10 points, name these blobby, relatively shapeless single-celled organisms, one species of which is the cause of human dysentery.

Answer: Amoeba(s)

5. After the February Revolution, he defeated Gen. L.E. Cavaignac for the Presidency. In Dec. 1851, he dissolved the Assembly, & a coup installed him as Emperor, as which he served until 1870. FTP, name this leader of the Second Empire of France.

Answer: Napoleon III (accept Louis Napoleon Bonaparte)

6. He is depicted as a freedman and patron of the arts devoted to his wife Fortunata, but he eventually disses her. He also plays some ball game & publicly urinates while hosting a feast. He was a rich, gluttonous delight in Petronius' Satyricon. FTP, name him.

Answer: Trimalchio

7. This island lies between the Naiwi Channel & the Kauai Channel. Its largest cities are Kaneohe and its features Pearl Harbor near Honolulu. FTP, name this island.

Answer: Oahu

8. Curare works by blocking it. After it is released by the transmission of an impulse, it degrades into acetate & can be re-manufactured. FTP,

name this neurotransmitter.

Answer: acetylcholine

9. His last day on Earth was Heavenly. Literally, he was at the majestic Heavenly ski slopes that overlook Lake Tahoe when he went out of control and crashed into a tree. For all of his fans, that day turned into pure hell. For 10 points, who was this singer and politician that died on January 5th, 1998, leaving former wife Cher and daughter Chastity in grief?

Answer: Sonny Bono

10. He was the 117th pick in the 1984 NHL draft by the Calgary Flames. This right wing was subsequently traded for Rob Ramage & Rick Wamsley to St. Louis. This off-season, he signed with the Dallas Stars. FTP, name this goal-scoring fiend who hopes to win a Stanley Cup finally.

Answer: Brett Hull

11. They were divided into two branches: the Ripirarians on the middle Rhine, and the Salians in the Low Countries, who together controlled territories from east of the Rhine to the Pyrennes. Their history as well is divided into two periods: the Merovingian, and the Carolingian. FTP, name this confederation of Germanic barbarian tribes, whose most famous leader was Charlemagne.

Answer: Franks

12. Nearest to us, the landscape is a the yellowish-brown of grain, but it becomes more and more green as it recedes to the horizon. Various buildings also appear, but their individual shapes are difficult to make out; the primary effect is of their flat, box-like surfaces. In the background, a bluish-white mountain rises organically from the rest of the landscape. FTP, name this work by Paul Cezanne.

Answer: Mont Sainte-Victoire

13. He is able to outfox King Noble, Sir Bruin, Tibert, & Isengrim. One of his most famous schemes outwitted Chanticleer the cock. FTP, name this fabled fox from French fabliaux.

Answer: Reynard

14. Despite the hype, this new TV show had lost 2 percentage points in its audience share by the second Tuesday of its airing. Starring Keri Russell, it is the show that absorbed half of the WB network's fall promotion budget. FTP, name this new show about an young woman trying to find herself at a New York City college.

Answer: Felicity

15. It is more complex than a band but less complex than a chiefdom. In this level of sociological organization, political leaders generally acquire leadership through other roles as economic redistributrors but leadership is limited to a local level -- like a village. For 10 points, what is this term, which could describe many organized human groups through history including native Americans and those of ancient Israel and completes the name of the rap group a [blank] Called Quest.

Answer: tribe

16. This son of Amittai went to Joppa to flee to Tarshish instead of obeying the Lord's command to go to Ninevah. As a result, a storm rocked his ship & he was swallowed by a great beast that most think is a whale. FTP, name this Old Testament prophet.

Answer: Jonah

17. Born 245 in Salona, his chief concern was to assure the stability of the state and of the throne. As a result, Britain was restored to the Empire in 296, the Persians were subjugated in 298, and the tetrarchy was established as a form of government. FTP, name this Roman emperor, whose unsuccessful economic policies and bloody persecutions of Christians were the only black marks on his reign.

Answer: Diocletian

18. By the pen of Euripides, she got her revenge without paying the same price as her sibling, who was hounded by the Furies for committing an act of Matricide. In some versions, she marries Pylades after assisting in the murders of Aegisthos and her mother, Clytamnestra. For 10 points, name this "complex" Greek female, the sister of Orestes and daughter of Agamemmon.

Answer: Electra

19. Federal Hall, the site of Washington's first inaugural address, is located alongside it. Extending from Broadway to the East River, it forms an important triangular district with New and Broad Streets. FTP, name this New York City street, which gets it's name from the Dutch fortifications which traced the path it now follows.

Answer: Wall Street

20. He succeeded Galileo as mathematician to the court of Tuscany and did some notable work on conic sections. He also derived the area of the cycloid. But his largest claim to fame resulted from his endeavoring to solve the problem of why water could not be pumped out of a well more than 33 feet deep. For 10 points, name this man who deduced that the answer to the problem of the well was that the atmosphere possessed weight and therefore exerted a pressure -- pressure that could be measured with his own invention -- the mercury barometer.

Answer: Evangelista Torricelli

21. Born in 1903, this pitcher won 253 games in his career, including 24 consecutive in 1936-37. A lefty, he pitched for the New York Giants from 1928 to 1943. FTP, name this pitcher, best remembered for his performance in the 1934 All-Star Game, when he struck out Babe Ruth, Lou Gehrig, Jimmie Foxx, Al Simmons, and Joe Cronin in order.

Answer: Carl Owen Hubbell

22. One of this writer's most well-known novels chronicles the separation between a brother and sister, a separation which mirrored her 1854 estrangement from her brother Isaac, who refused to see his sister because he disapproved of her decision to live with George Henry Lewes, a married man who could not obtain a divorce from his wife. However, she bowed to societal standards when she chose a masculine pen name. FTP, name this author of "Brother and Sister" and Mill on the Floss.

Answer: George Eliot (Also accept Mary Ann Evans)

23. It was conceived as an aural triptych. The center piece "Jeux des vagues" includes some rough areas. The first part "A Laube Midi Sur" & the latter, a 'dialoque' between the wind & the title entity reproduces some of the rhythmic patterns of breaking waves. FTP, name this piece by Debussy.

Answer: La Mer or The Sea

24. One of the colligative properties of solutions is the vapor pressure

depression that takes place when solute is added to a pure solvent. A man found that when he added solute to a pure solvent it depressed the vapor pressure of the solvent. The more he added the more depressed the vapor pressure became. This became known as -- FTP - whose Law?

Answer: Raoult 's Law

25. The first fossils of these early hominid creatures to be discovered were a part of a child's skull, unearthed in 1924 in present-day Botswana. South African anatomist Raymond Dart identified it as a new form of hominid. FTP, name these first clear and indisputable hominids of the Pleistocene Epoch.

Answer: Australopithecus africanus or Australopithecinae

Iowa Fullpack Boni

1. As a group -- they are among the most predisposed peoples on the planet to carry genes for hereditary diseases and it is in their populations that geneticists find an unusually high incidence of Fancomi anemia, Niemann Pick disease, Canavan disease and Bloom Syndrome. For the points stated:

A. For 10 -- name this race of Eastern European Jews

Answer: Ashkenazi
