Penn Bowl VIII:
ROUND 4 TOSSUPS
Yale B

1. Associated with an echoing rock near Sankt Goarhausen [GORE-how-zin], Germany, according to legend, she was once a beautiful young maiden, who threw herself into the river in despair over a faithless lover. Upon her death she was transformed, and henceforth could be heard on a rock near St. Goar. FTP, name this siren whose hypnotic singing lured sailors to their death in the Rhine.

ANSWER: *Lorelei*

2. This pre-Columbian Mexican manuscript is now in the Apostolic Library of the Vatican. A painted screenfold book made of a long strip of animal skin, it dates to just prior to the Spanish Conquest. An Aztec religious document, with ritual calendars, astrological information, and the traits of a number of deities, FTP, name this codex named for the Italian cardinal who owned it after its 1805 discovery.

ANSWER: the *Codex Borgia*

3. Intermediate carrier molecules in this sequence include iron sulfide and various cytochromes. The overall process transfers hydrogens from NAD and FAD to oxygen, forming water and releasing energy. FTP, what is this major sequence of respiratory reactions, which provides enough energy to make 32 ATP molecules?

ANSWER: *electron transport chain* or *oxidative phosphorylation*

4. In 1910, this Republican ran unsuccessfully for governor of New York. Governor-general of the Philippines under Coolidge, he served as Taft's Secretary of War. As Secretary of War under FDR, he urged an economic boycott of Japan. FTP, name this man, who declared that the US would not recognize Japanese territorial gains made in the Manchurian invasion, Herbert Hoover's Secretary of State.

ANSWER: Henry Lewis *Stimson*

5. Because of her influence, France sided with its hereditary enemy, Austria, during the Seven Years' War. Known for her great patronage of art and literature, she influenced French politics for nearly 20 years, overseeing many political appointments during that time. FTP, name this powerful figure, once the mistress of King Louis XV, who shares her name with a famous hairstyle.

ANSWER: Jean-Antoine *Poisson*, or the Marquise de *Pompadour*

6. This quarterback still holds the record for consecutive games with a touchdown pass, at 47 in a row, throwing to receivers like Johnny Orr and Tom Matte. His crowning achievement was leading the overtime drive which beat the Giants in the 1958 NFL championship. FTP, name this legendary Colts quarterback.

ANSWER: Johnny *Unitas*

7. It was based on Arthur Schnitzler's 1900 play *La Ronde*, a turn-of-the-century tale about sex in Vienna. In the new adaptation and modernization, ten characters of different social classes and backgrounds become ensnared in a daisy chain of sexual relationships. FTP, name this current theater production based on David Hare's adaptation, whose ten characters are all played by Iain Glen and Nicole Kidman.

ANSWER: *The Blue Room*

8. A landlocked country with an extensive river system, three-quarters of its land is covered with *chernozem*, an exceptionally fertile soil ideal for agriculture. It was the second-smallest Soviet republic, after Armenia, and it is bordered on the north, east, and south by the Ukraine, and on the west by Romania. FTP, name this republic, with its capital at its largest city, Chisnau [CHIS-now].

ANSWER: Republic of *Moldova*

9. Born near Seville, Spain, he took an active part in campaigns during the reigns of Titus and Domitian. During his reign, the Appian Way was restored, and the empire reached its largest dimensions, including his additions of Armenia, Mesopotamia, and Dacia. FTP, name this Roman emperor who was adopted by Nerva as his colleague and successor in AD 97, and was succeeded in 117 by Hadrian.

ANSWER: *Trajan* or Marcus Ulpius *Trajanus*

10. This property of light is responsible for the Poisson [PWAH-sohn] spot, a point of light which appears in the center of the shadow of a solid disc. The Huygens [HOY-guhns] principle attempts to explain this property, whose name may be preceded by either Fresnel [freh-NEHL] or Fraunhofer [FROWN-hof-fur]. FTP, identify this wave property, in which light bends around the edges of an obstacle.

ANSWER: *diffraction* [accept *interference* before "Huygens"]

11. Born in Brooklyn in 1928, he worked at FAO Schwarz during the day, and went to art school at night. His first assignments were illustrating the children's books *Wonderful Farm* and *A Hole is to Dig*. In 1956, he wrote and illustrated his first book, *Kenny's Window*. FTP, name this man, most famous for his trilogy which includes *Outside Over There*, *In the Night Kitchen*, and *Where the Wild Things Are*.

ANSWER: Maurice Bernard *Sendak*

12. A descendant of an old Tatar family, he was a favorite of Ivan the Terrible, and became czar upon the death of Ivan's son. He was the first Russian ruler to use Siberia as a place of banishment for political exiles, he issued an edict in 1587 that bound serfs to the land. FTP, name this powerful Russian ruler who was the subject of a tragedy by Pushkin, and subsequently an opera by Mussorgsky.

ANSWER: Boris Fyodorovich *Godunov*

13. Enthroned at age 7, he shrewdly deposed his regent, Oboi, six years later. He took much care to win the goodwill of the Chinese, who resented their Manchu conquerors. He made six grand tours to southern China, and sponsored the writing of a history of the Ming dynasty.

FTP, name this Qing [ching] emperor who issued the Sacred Edict, a series of 16 moral maxims, in 1670, and ruled China from 1661 to 1723.

ANSWER: **Kangxi** or **K'ang-hsi**
