

SNEWT III: TOSSUP QUESTIONS (Yale C)

1. This French theologian and philosopher is probably best known for his solution of the problem of universals and for his original use of dialectics. In 1140 Saint Bernard of Clairvaux prevailed upon Innocent II to condemn him for his skeptical and rationalistic writings. That's what Britannica will tell you. What he's REALLY famous for is his love affair with a girl almost twenty years his junior. His letters to Heloise are counted among the classics of romantic correspondence. FTP, name this monk whose autobiography was *Historia Calamitum*.

ANSWER: Peter \_ABELARD\_

2. Houses, trees, and haystacks might sound like stick-figure surroundings, but they were this man's main motifs. In the 1880s, unhappy with his own style of comma-like brushstrokes and strong colors, he adapted Seurat's dottier divisionism. Despite peers' discouragement, poverty, and his wife's threat to drown herself and two of their kids, he supported this new art even after abandoning it. FTP, name this French Impressionist and father figure to Monet and Gauguin.

ANSWER: Camille \_PISSARO\_

3. This polysaccharide consists of units of the amino sugar glucosamine. It has many uses, acting as a wound-healing agent, a food and drug stabilizer, and a membrane for chromatography. Most importantly, it serves as protection for certain organisms. FTP, name this white horny substance found in the outer skeleton of insects and crustaceans.

ANSWER: \_CHITIN\_

4. Born in New York City in 1950, this 2000 presidential candidate has served as a U.S. ambassador to the United Nations Social Economic Council and was twice nominated by the Republican for the Senate in Maryland. FTP, name this African-American Republican author and commentator who is making his second presidential run since 1996, but has gotten off to a slow start with few votes in the recent Iowa caucuses.

ANSWER: Alan \_KEYES\_

Its main theme is human powerlessness in the face of the vicissitudes of fate and despite its title it has nothing to do with ancient Athens. The title character endures two shipwrecks, and believes after the second one that both his wife Thaisa, daughter of King Simonides of Pentapolis, and his daughter Marina, who marries Governor Lysimachus of Mytilene are lost, but through the workings of mysterious fate all are happily reunited at the end. For ten points, name this romance of Shakespeare, whose title character, a prince of Tyre, shares his name with a great Athenian statesman.

ANSWER: \_PERICLES\_, Prince of Tyre

6. This body of water, which is 35 to 60 miles wide, contains the islands of Qeshm (Qishm), Hengam (Henjam), and the island that is its namesake. It is of great strategic importance due to the sheer volume of petroleum that passes through it. While the Persian Gulf lies on its western side, the Arabian Sea lies on the southeast. FTP, name this body of water that separates Iran from the Arabian Peninsula.

ANSWER: \_STRAIT OF HORMUZ\_ (or Ormuz)

7. He entered Parliament in 1890 with a win in Caernarvon Boroughs, <sup>Wales</sup> ~~England~~ and would keep that seat for over 50 years. In the House of Commons, he distinguished himself with his wit and audacity in debates, and joined the Liberal Party's radical wing. He also served in the Cabinet as president of the Board and Trade and was elected as British prime minister in 1916. FTP, name this man who served from 1916-1922 and directed the British through World War I.

ANSWER: David \_LLOYD GEORGE\_

8. Published in 1887, this is Nietzsche's major work on ethics, in which he used philosophy, psychology, and classical philology to give new directions to an ancient discipline. The three essays that compose the work concern master morality vs. slave morality, guilt and bad conscience, and ascetic ideals in religion and in the academy. FTP, name this work, which attempts to give the history of our conscience.

ANSWER: On the \_GENEALOGY OF MORALS\_

9. Golf is in the family for this 28-year-old Jacksonville native, one of the new stars of the PGA Tour. Many of his relatives have participated in professional tournaments, including his father Robert, who plays on the senior tour. This golfer's career took off at Georgia Tech, where he was two-time ACC Player of the Year. FTP, name this player who has challenged Tiger Woods for golf's top spot over the last two years.

ANSWER: David \_DUVAL\_

10. This white crystalline substance was first identified in 1908 by Kikunae Ikeda as a flavor enhancer. Ikeda found that soup stocks made from seaweed contained high levels of this substance, and began its commercial production. Today, it is believed to be the cause of "Chinese Restaurant Syndrome". FTP, name this substance, a sodium salt derived from glutamic acid.

ANSWER: \_MONOSODIUM GLUTAMATE\_ (Prompt on MSG)

11. From warrior's victory dance to formal march of the nobility, this popular 17<sup>th</sup>- to 19<sup>th</sup>-century dance was used as a musical form by Handel, Beethoven, and Chopin. In its aristocratic mode, dancers would couple according to social rank would glide around the ballroom, slightly genuflecting every third step. FTP, name this dance which takes its name from a central European country.

ANSWER: \_POLONAISE\_

12. Born in Ribe, Demark in 1849, this man left Denmark in 1870 to seek work in the U.S. as a carpenter. He struggled with many of the problems immigrants at this time did, especially joblessness and hunger. After finding work as a police reporter for the *New York Tribune*, he began to see the horrible conditions of the New York slums. FTP, name this man who forced reforms of the slums with his 1890 book *How the Other Half Lives*.

ANSWER: Jacob \_RIIS\_

13. It alternated with Comayagua as the capital of its country until 1880. In 1578, this city was founded on the slopes of Mount Picacho and the banks of the Choluteca river as a gold and silver mining center. It lies just about 50 miles north of the Gulf of Fonseca. As one of the few world capitals without a railroad service, it largely depends on the international airport at Toncontin. FTP, name this city of Honduras.

ANSWER: \_TEGUCIGALPA\_

14. The followers of this religion adhere to the three-fold path represented by their motto: "good thoughts, good words, good deeds." This monotheistic religion may have been the first with a single supreme god. Avesta is the name of the main holy book, which includes five hymns called the Gathas. FTP, name this religion whose supreme god is Ahura Mazda, founded by Zarathustra in Persia.

ANSWER: \_ZOROASTRIANISM\_

15. Born in 1622 in Breconshire, Wales, this poet ascribed his spiritual reawakening and inspiration to George Herbert's poems, including Herbert's "The Temple". His secular works include *Olor Iscanus*, or *The Swan of Usk*, but his most famous work is *Silex Scintillans*. FTP, name the poet, whose Fiery Flint refers to "the stony hardness of his heart, from which the divine steel strikes fire."

ANSWER: Henry \_VAUGHAN\_

16. Discovered in the Stanford Linear Accelerator Center by a group led by Martin Perl, this lepton has a mass of 1,784 MeV. Due to its high mass, this particle decays very rapidly, and has a mean life of  $3 \times 10^{-13}$  seconds. It also has a negative charge, like the electron and the muon, but is disgustingly larger than either of the two particles. FTP, identify this particle, named after a Greek letter.

ANSWER: \_TAU\_

17. Born in the West Baltimore slums as Frizzel Gray, his current name means "conquering son of kings." While serving in Congress, he gained repute for bucking conventional wisdom and challenging other Democrats, and became chairman of the Congressional Black Caucus in 1993. FTP, name this president of the National Association for the Advancement of Colored People who has recently encouraged minorities to boycott TV because of many new series' all-white casts.

ANSWER: Kweisi \_MFUME\_

18. If water ripples move outward from a center point, why not a cultural characteristics? That's the assumption for this theory, which states that widely distributed traits are older than more narrowly distributed ones. Although problems such as varied diffusion speeds and trait distribution disturbed by population movements weaken it, it can determine at least the probability of developments in historically unified places. FTP, name this hypothesis of anthropology.

ANSWER: \_AGE-AREA\_ Hypothesis

19. In 1986, Black Francis, Joey Santiago, David Lovering, and Kim Deal formed this student band on the remains of punk and surf music. Against all odds, from 1987 to 1993, it became the most fashionable alternative rock band without ever reaching commercial success. After its breakup, Kim Deal moved on to be the lead singer of the Breeders. FTP, name the band about whom Nirvana's Kurt Cobain said, "Basically, we were trying to rip off them."

ANSWER: \_PIXIES\_

20. This poem is loved by Westerners as a hymn of praise to sensual delights. It enjoys a more profound reputation throughout the East, however, where it is known as a deep allegory of the soul's romance with God. Constructed in epigrammatic quatrains, its author was born in Khorassan in the latter half of the eleventh century. FTP, name this poem by Omar Khayyam.

ANSWER: \_RUBAIYAT\_

21. Born in 1849, he went to work for the railroad in Carbondale, Pennsylvania at age 13. At 17, he became a machinist's apprentice and joined the Machinists' and Blacksmiths' Union. In 1879, he joined the Knights of Labor and rose rapidly through its ranks while also serving as mayor of Scranton, PA. FTP, name this labor leader who succeeded Uriah Stephens as head of the Knights of Labor and resigned in 1893.

ANSWER: Terence \_POWDERLY\_

22. Born in 1901 into one of Vietnam's noblest families, this man was on friendly terms with the Vietnamese imperial family in his youth. In 1933, he was the Minister of the Interior, but resigned the same year and spent twelve years in Hue. In 1945, he was captured by Ho Chi Minh, and refused an offer to join his independent government in the North. FTP, name this leader who served as prime minister of South Vietnam until he was 1963.

ANSWER: Ngo Dinh \_DIEM\_

23. This novel centers on Renzo and Lucia, two lovers who are forced to flee from the villainous Don Rodrigo. The plot reflects the turbulence of 17th century Italy, where noblemen flouted law and justice, wreaking havoc in the lives of those who were too weak or poor to protect themselves. Other significant characters include the Nun of Monza and Father Cristoforo. FTP, name this classic by Alessandro Manzoni.

ANSWER: \_THE BETHROTHED\_

24. Living, breathing humans aren't the only ones that can have fake identities. This Hellenistic sculpture fragment of a male nude by Apollonius used to enjoy a reputation as a first-century BC original. Now, experts believe it is a copy of a second-century work. Despite this deception, its dynamic pose influenced Michelangelo's figure style and inspired Baroque artists. FTP, name this work, whose moniker would have flattered a certain English TV butler.

ANSWER: \_BELVEDERE TORSO\_

25. Frustrated by France's anarchy after the civil wars of the Roman Catholics and Huguenots, this man sought a remedy to the situation. His prescription: the recognition of the state's unique, absolute, and supreme power of sovereignty. This man believed that the government, whether a monarchy, aristocracy, or democracy, commanded through divine right and according to divine and natural law. FTP, name this man, who published *Six Livres de la Republique* in 1576.

ANSWER: Jean \_BODIN\_

26. Following the success of nylons, this group of polymers was prepared by condensation of a diamine and terephthalic acid. The chains of this polymer pack closely, producing a tough, stiff, high-melting fibre. Some of the trademarked names in this group include Nomex (TM), developed in 1961, and Kevlar (TM), developed in 1971. FTP, name these polymers, which are essentially aromatic nylons.

ANSWER: \_ARAMIDS\_

SNEWT III: BONUS QUESTIONS (Yale C)

1. FTPE, name the following major decisions of the Supreme Court under Chief Justice John Marshall.

(A) A Maryland man sought to receive his Fifth Amendment right to just compensation from his city's government, but the Court ruled that the Bill of Rights did not apply to states in this 1833 case.

ANSWER: BARRON V. BALTIMORE

(B) This 1819 decision upheld the constitutionality of the Second Bank of the United States and ruled that states could not tax the bank.

ANSWER: MCCULLOCH V. MARYLAND

ANSWER: A SPORTSMAN'S SKETCHES

3. Give the capitals of these Canadian provinces, ten points each

(A) British Columbia

ANSWER: VANCOUVER

(B) Prince Edward Island

ANSWER: CHARLOTTETOWN

(C) New Brunswick

ANSWER: FREDERICTON

4. Name the following first-year NFL coaches, FTPE

(A) This former Minnesota Vikings offensive coordinator is now head coach of the Baltimore Ravens.

ANSWER: Brian BILLICK

(B) This former offensive coordinator in Jacksonville is the new head man for the newly formed Cleveland Browns.

ANSWER: Chris PALMER

(C) This former Green Bay quarterbacks coach now leads the Philadelphia Eagles.

ANSWER: Andy REID

5. 30-20-10 Identify the Greek mythological figure.

30 - This huntress of Artemis was raped by Zeus. As a result, she was banished from the virgin huntress' circle and bore the child Arcas.

20 - Hera turned her into a bear in a fit of--surprise surprise--jealous rage.

10 - She was killed by her own son, who failed to recognize his mother in her bear shape. Zeus took pity and brought her up to the sky as the constellation Ursa Major with her son, Ursa Minor. She also gives her name to a Galilean satellite of Jupiter.

ANSWER: \_CALLISTO\_

6. FTPE, identify the movie star from his or her real name.

(A) Mapother is the real surname of this celebrity from Syracuse, NY.

ANSWER: Tom \_CRUISE\_

(B) This star, born Demetria Guynes, was named after a cosmetic product.

ANSWER: Demi \_MOORE\_

(C) This sexy guy, who played Tom Hanks' lover in the movie *Philadelphia*, is actually a Jose.

ANSWER: Antonio \_BANDERAS\_

7. The last two years have featured books by all the major network news anchors. Name the books FTPE.

(A) This Tom Brokaw work describes individuals who grew up during the Great Depression and World War II.

ANSWER: \_THE GREATEST GENERATION\_

(B) This work by Peter Jennings and ABC producer Todd

Brewster details the major events and achievements of the last 100 years.

ANSWER: \_THE CENTURY\_

(C) This 1999 Dan Rather book contains essays whose topics range from Fidel Castro to bass fishing.

ANSWER: \_DEADLINES AND DATELINES\_

8. Are you depressed? Keep on getting hosed on lame tossups? Well, you can't be as depressed as these areas of the world. Answer these questions about them FTPE.

(A) This flat lowland between Kazakstan and Russia occupies about 77,220 square miles. It's below sea level on the northern side, and both the Ural and Volga Rivers pass through it and empty into the body of water with which it shares its name.

ANSWER: \_CASPIAN\_ Depression

(B) This depression in the Libyan Desert, at most 435 feet below sea level, is the lowest point in Egypt. In the 1970s, oil deposits were discovered on the southern part of it.

ANSWER: \_QATTARA\_ Depression

(C) The Turpan Depression is largest area below sea level in China lying at the southern entrance to a major pass through the Tien Shan mountains. It lies in the north of this basin which composes most of China's northwest along with the Jzugarian Basin.

ANSWER: \_TARIM\_ Basin

9. Name the following key figures concerning the end of apartheid in South Africa, FTPE

(A) This man led resistance against South African policies in the 1980's, winning a Nobel Prize for his efforts

ANSWER: Desmond \_TUTU\_

ANSWER: P.W. \_BOTHA\_

10. Given minor characters, name the Shakespeare play, FTPE.

(A) Ross, Lennox, Donalbain

ANSWER: \_MACBETH\_

(B) Sicinius, Brutus, Agrippa, Tullus Aufidius

ANSWER: \_CORIOLANUS\_

(C) Peter, Paris, Gregory

ANSWER: \_ROMEO AND JULIET\_

11. I know Windows 2000 is coming soon, but I'm a sentimentalist, and I reminisce about the days when DOS was the way to go. Answer these questions about my now-defunct operating system FTPE.

(A) First, what does DOS stand for?

ANSWER: \_DISK OPERATING SYSTEM\_

(B) Remember the good ol' "dir" command? I bet you also recall the flags that controlled it. For example, if you wanted to see a page at a time, you would type "dir /p". Now, what flag would you use if you wanted to see files in chronological order?

ANSWER: \_OD\_ or \_DIR /OD\_ (od stands for order of date, not overdose)

(C) Remember when you wanted to kill a directory, and how "del \*.\*" didn't work if it had subdirectories? Well, this command (the author's favorite) took care of that problem. Name this command that could kill a directory and its subdirectories, but didn't offer the comforts of an "are you sure (Y/N)" prompt.

ANSWER: \_DEL TREE\_

12. FTPE, answer the following about a famous monastery.

(A) This monastery, located about 45 miles north of Lyons, was founded in 910 CE by Duke William the Pious of Aquitaine.

ANSWER: \_CLUNY\_

(B) Cluny represented a return to the strict observance of this set of rules, established by a saint who set an example for monks' behavior.

ANSWER: \_BENEDICTINE\_ Rule

(C) This second abbot of Cluny, who shares his with the designer of Charlemagne's palace chapel, made Cluniac monasteries answerable only to the pope. In addition, he was directed by Pope John XI to reform monasteries in Gaul and Italy, and helped make Cluny the most influential monastery of its time.

ANSWER: St. \_ODO\_ of Cluny

13. FTPE, name these atypical painting techniques.

(A) This technique, in which one “burns in” colors to create a brilliant effect, makes use of pigments mixed into hot wax.

ANSWER: \_ENCAUSTIC\_ painting

(B) Surrealist painters used this mode of uncensored visual free association to express fantastic and erotic images of the unconscious.

ANSWER: \_AUTOMATISM\_

(C) Crazy as it seems, the act of pressing liquid paint between a pair of canvasses and pulling them apart to create bubbles and ridges of pigment has this as a legitimate name.

ANSWER: \_DECALCOMANIA\_

14. We know about the metric system, and we know about the elements, so let's combine them for this question.

(A) What are the two elements used to create the international prototype for the Kilogram? You get ten points for one, 15 points for both.

ANSWER: \_PLATINUM\_ and \_IRIDIUM\_

(B) The unit second is the duration of 9,192,631,770 periods of the radiation corresponding to the transition between two hyperfine levels of this atom. You get ten points for the element, 15 for both the element and the isotope number.

ANSWER: \_CESIUM-133\_

15. For fifteen points each, identify these great works of Chinese literature.

Written during the Ming Dynasty, it is something of a historical novel, chronicling the events of the fall of the Han Dynasty. It features such characters as the warlords Tsao Tsao and the sorcerer Chuko Liang.

ANSWER: \_ROMANCE OF THE THREE KINGDOMS\_

(A) Canute II

ANSWER: \_ETHELRED II\_ or \_ETHELRED THE UNREADY\_

(B) Henry IV

ANSWER: \_RICHARD II\_

(C) Edward VI

ANSWER: \_MARY I\_

17. Name these musical terms, FTPE.

(A) Although Dvorak's collection of *Eight* is better known, Robert Schumann was the first composer to use this term, meaning a short composition expressing a mood or nonmusical idea, as a title.

ANSWER: \_HUMORESQUE\_

(B) This distinct rhythmic pattern, an aspect of serialism, repeats many, many, many times no matter to what melodies it belongs.

ANSWER: \_ISORHYTHM\_

(C) The most typical and distinctive feature of Western music is this art of combining various melodic lines in a musical piece.

ANSWER: \_COUNTERPOINT\_

18. Answer these questions about a law that's been defunct since 1956.

(A) FTP, name this "law" which was explicitly formulated in the early 1930s by Hungarian physicist Eugene Wigner. It implied that the laws of physics were indifferent to mirror reflections and could not predict a change in the symmetry of the wave function representing a system of fundamental particles.

ANSWER: \_LAW OF CONSERVATION OF PARITY\_

(B) For ten points, name either of the two scientists who disproved this law and earned a Nobel Prize for Physics in 1957.

ANSWER: Chen Ning "Frank" \_YANG\_ or Tsung-Dao \_LEE\_

(C) Yang and Lee proposed that a violation of parity was occurring when these newly discovered mesons exhibited decay modes into configurations of a different parity. FTP, name this meson.

ANSWER: the \_K\_ meson

19. FTPE, answer the following questions about the Arthurian legend.

(A) The day after her first husband was slain because of the scheme that Uther Pendragon and Merlin smoked up, Uther married this woman, the mother of Arthur.

ANSWER: \_IGRAINE\_

(B) In one legend, he is the son of Elaine and Lancelot who drew the sword successfully from the floating stone. He replaced Perceval as the Grail-seeker and was the only knight to accomplish the mission.

ANSWER: \_GALAHAD\_

(C) He is the foster brother of Arthur and the son of Sir Ector. Arthur made him his seneschal.

ANSWER: Sir \_KAY\_

20. 30-20-10 Name the economist.

30 - This man, who became a professor at the London School of Economics in 1929, thrived as a theorist at a time when extensive mathematical training wasn't necessary for that field.

20 - He was chairman of the *Financial Times* from 1961-70 as well as Britain's Committee on Higher Education, which helped expand and reform the country's university system in the 1960s.

10 - His works included *Essay on the Nature and Significance of Economic Science*, *Theory of Economic Policy*, and *Robert Torrens and the Evolution of Classical Economics*.

ANSWER: Lionel Charles \_ROBBINS\_ (of Clare Market)

21. Answer these questions about the investigation into the 1993 Waco incident, which was reopened this September after news broke of the FBI's use of tear gas.

(A) For 5 points, this Senate Majority leader has called for the resignation of the attorney-general over the matter.

ANSWER: Trent \_LOTT\_

(B) For five points each, name the head of the FBI and the U.S. Attorney-General who have reportedly clashed over this news.

ANSWER: Louis \_FREEH\_ and Janet \_RENO\_

(C) For 15, this former Missouri senator has been appointed special counsel to investigate the situation.

ANSWER: John \_DANFORTH\_

22. FTPE, name these commentators on the lush green field of political science.

A) This Norwegian-American Yale economist, who wrote 1899's *The Theory of the Leisure Class*, spouted such trendy phrases as "conspicuous consumption" and "pecuniary emulation". He also believed that political science was nothing more than a "taxonomy of credenda."

ANSWER: Thorstein \_VEBLEN\_

(B) This man believed that scientists should replace priests in the social order and lead society in new spiritual directions. He thought politics and morals could become "positive" sciences, and command belief through objective evidence.

ANSWER: Henri de \_SAINT-SIMON\_

(C) This man, whose ideas greatly influenced political science after WWII, thought that metaphysics and normative formulations were "spooks" and "mind-stuff," and that observable fact was the proper study of politics.

ANSWER: Arthur F. \_BENTLEY\_

23. 30-20-10 Name the composer.

30 - After years of musical studies with his Austrian-Polish mother, at the Caminal Academy, under Enrique Morera, and in Germany, he became conductor of the Barcelona Philharmonic Orchestra in 1944.

20 - His works included *Embattled Garden*, *Acrobats of God*, and *Agathe's Tale*.

10 - The eight-tone flamenco scale formed the basis of much of his rhythmically powerful ballet music.

ANSWER: Carlos \_SURINACH\_

24. Answer the following questions about the life of civil rights leader Booker T. Washington.

5 - He clashed with this late 19<sup>th</sup>-century black leader, author of *The Souls of Black Folk*.

ANSWER: W.E.B. \_DUBOIS\_

10 - He gave a speech in this city, calling for blacks to push more for economic freedoms and less for civil rights.

ANSWER: \_ATLANTA\_
