

GAME V

1. Despite the efforts of pretenders on all sides including Perkin Warbeck and Lionel Simnel, this monarch was able to keep the throne he had pirated. Simnel he defeated in battle at Stoke in 1487. Warbeck, who was masquerading as the Earl of Warick, he refuted by parading the real Earl from prison in the Tower of London. Later he captured Warbeck and executed him. However, until his dying day in 1509, this first Tudor was ever afraid of Yorkist efforts to unseat him. FTP, who was this English king who killed Richard III at Bosworth field to gain the throne?

\HENRY VII\

2. Many think of this author as a Marxist since he depicts human struggles as class conflicts. His main characters challenge the notions of duty, action, non-action, and morality. Born in 1901 in France, this essayist was also something of a propagandist for the left. FTP, who was this author of Man's Fate and Man's Hope?

\Andre MALREAU\

3. art sci *It is a short-lived quasi-atom composed of an antiparticle, a nucleus, and an ordinary negative electron formed when a positive muon captures an atomic electron after being slowed down in matter. It can form a few compounds w/ gases such as Nitric dioxide & ethylene. FTP what is this bizarre type of atom which thro research helps explain the puzzling nature of heavy electrons - muons?*

MUONIUM

It may result from an injury which caused damage to larger bloodvessels of the chest wall. Air and blood may seep into the pleural cavity leading to occult bleeding. FTP what is this name for the collection of bloody fluid in pleural cavity betw the membrane lining thoracic cage & membrane covering the lung?

Hemothorax

4. Name is the same: The Arab king of Syria for 1920 deposed by the French, but installed in Iraq by the British from 1921-1933; The last King of Iraq killed in the 1958 revolution; and the Saudi king murdered by his nephew in 1975. FTP, what name did all share?

\FAISAL\

5. Officially called Isla de Pascua, it lies in the Pacific Ocean with only one neighbor within 300 miles in any direction. Its inhabitants ate sweet potatoes, a South American crop, so its settlers may have come from the East, as Thor Heyerdahl demonstrated in 1947. Others believe the inhabitants were Polynesians, and the enormous statues they erected seem more Polynesian than American. FTP, what mysterious island is this, world famous for the gigantic stone faces inexplicably set up by primitive means?

\EASTER ISLAND\

6. He appears to be a villain, and in fact, ultimately wounds the title character with a poisoned blade, but this man is not really such a bad sort. Hamlet had stabbed his father. Also, seeing Hamlet jumping in Ophelia's grave sets him over the edge. FTP, what nobleman is this, the son of Polonius, who challenges Hamlet to a fencing bout, only to be himself slain, though in his dying moments he says the king is to blame?

\LAERTES\

7. Founded in Kwangsi by a mystic named Hung Hsiu-Ch-ing (Hung Hsee Ching), who had adopted some Protestant ideas, this movement quickly became a serious threat to the Manchu dynasty. Adherents called its territory The Heavenly kingdom of Great Peace, although it waged total war on the government in Peking. What was this 1850-64 uprising

whose capital was Nanking, and FTP whose historical impact was the demonstration of the Peking regime's weakness?
\\T'AI P'ING rebellion\\

8. psyc

9. sci A member of the Danaidae family, they live mainly in Americas. Their wingspan is about 4 inches and their bad taste is signalled to predators by their black bordered wings, veins, and 2 rows of spots. A similar animal - the viceroy version mimics this coloration for protection. FTP what is this familiar member of ~~the~~ the order lepidoptera which migrate some 1800 miles every ^{winter?}

10. This song was written as a counterpart to the Southern "Dixie" which had become the popular anthem of the Confederate army. Its author was inspired by the sight of Union troops marching outside her window. Written to the tune of "John Brown's Body," the song quickly became the national anthem of the Union army. FTP, what was this Julia Ward Howe song?

MODERATE butterfly

\\BATTLE HYMN OF THE REPUBLIC\\

11. These islands, discovered by Hawkins in 1594 were settled in 1766 by the Brits at Fort Egmont. The Spanish drove the British out, but in 1817 they returned. The two large islands are separated by a strait 6 miles wide, but over 80 smaller islands are clustered together under this name. What are these islands, in Spanish, the Malvinas, which were FTP the cause of a conflict between Britain and Argentina in the early 1980's?

\\FALKLANDS\\

12. Identify the number. Its associated continued fraction is the slowest-converging among all real numbers. If F_{sub_n} is the nth Fibonacci number, then this number is the limit as n goes to infinity of $F_{sub_{(n+1)}}$ divided by F_{sub_n} . It's approximately equal to 1.618, and exactly equal to one-half times the quantity (1 plus the square root of 5). FTP, what is this number whose ratio is used in rectangles everywhere in ancient Greek architecture?

The GOLDEN RATIO or PHI

15. After the Supreme Court declared all capital punishment laws unconstitutional in 1972, the death penalty was abolished until in 1976 Utah sentenced this man to death under a new and improved death penalty statute. Despite legal challenges from parties ranging from his mother to the ACLU, he was executed as per his wish in 1977. FTP, who was this convicted murderer, the main character in Norman Mailer's The Executioner's Song?

\\Gary GILLMORE\\

16. The title character is first seen fleeing his revolting people. He had convinced them he was a near god who could only be slain by a silver bullet. As the play progresses, the tom-tom beat of the drums increases and the title character's terror likewise so escalates that he is reduced on the evolutionary ladder. Finally the people kill him, putting an end to his regime. FTP, what Eugene O'Neill play is this?

\\THE EMPEROR JONES\\

17. This wise diety agreed to go as a hostage with Odin's brother to the Vanir Gods, but they grew angry and cut off his head, sending it back to Odin. This grieved the Allfather who reanimated the head in order to further benefit from his wisdom. FTP who was this individual, best known for guarding the Well of Wisdom, from which he allowed Odin to drink in exchange for an eye?

\MYMIR\

18. No ruler of England bore this name until some 250 years passed following this royal schemer's failed bid. Son of the Duke of York, he switched sides from time to time during the Wars of the Roses, especially if the wind was blowing. Though his defection back to Edward IV was instrumental in that king's restoration, he was later tried for treason and allegedly drowned in a butt of Malmsey wine. FTP, by what name do we know the Duke of Clarence?

\GEORGE\

19. sci Also called Von Recklinghausen's syndrome I, this autosomal dominant trait may cause benign soft tumours to appear on the skin. Bones may thin, enlarge or experience deformity and the tumours may become malignant. Extreme examples of deformity may result in gross changes to skeletal features, such as it thought to have afflicted John Merick. FTP, what is this disorder thought to have affected ^{Victorian} ~~Victorian~~ English, Elephant man?

20. This power is thought to give the incumbent an overwhelming advantage against challengers. Simply put, the incumbent has the ability to deluge the voter with campaign literature and make the tax payer foot the bill. Some campaign reformers have spoken against this practice, urging that all candidates should have to buy their own stamps. FTP, what is this advantage by which incumbents can sign a letter instead of paying postage?

\FRANKING\

NEUROFIBROSIS
also take
Proctus
syndrome

They are among most abundant animals, occurring as parasites in animals & plants or as free living forms in soil, fresh H₂O, marine enviro, and even in vinegar and beer mells. 15,000 species have been named but hey that's just peanuts compared to how many of these suckers are out there. They ~~are~~ get as large as 7mm but most are tiny. They are usually bilaterally symmetrical, elongate and tapered at both ends. They also possess a pseudocoel - a fluid filled ~~body~~ cavity betw digestive tract & body wall. FTP what is the class of these nasty critters which include hookworm, pinworm, lungworm, and cause trichinosis?

NEMATODA or ROUNDWORMS
