- 7. He was fired from the Anaconda Mining Company for making an earth mover pop a wheelie. His attempt at jumping over the Snake River Canyon is one of the 20 most-watched Wide World of Sports events of all time. Name this recently-deceased motorcycle daredevil. Evel Knievel (accept Robert Craig Knievel) answer:
- 8. His mother's name is Merope Gaunt and he is skilled at the arts of Legilimency and Occlumency. Among his followers are Augustus Rookwood, Antonin Dolohov, and the Carrow siblings. Name this dark wizard whose name is really Tom Marvolo Riddle. Dark Lord Voldemort (accept He Who Must Not Be Named) answer:

- 9. Today, his skill is partially attributed to Marfan or Ehlers-Danlos syndrome. Sergei Rachmaninoff wrote a rhapsody on a theme of his. Name this Italian violinist, whose prodigious skill was rumored by some to be the result of a pact with the devil. answer: Niccolo <u>Paganini</u>
- 10. From a group therapy session, we find that this person's father was a "relentlessly self-improving boulangerie owner from Belgium." Name this apparent creator of Starbucks and brother of Austin Powers, International Man of Mystery. answer: <u>Dr. Evil</u> (accept <u>Douglas</u> "<u>Dougle</u>" <u>Powers</u>)

Round 3: Pyramid Round – There is no conferring. Ten tossup questions each worth 10 pts each. 30 pts available on each of the bonus questions. There are no bouncebacks on the bonus questions. An incorrect answer before the question is read is a -5 penalty. An incorrect answer after the question is read is no penalty.

1. While studying at Yale, some of his crueler classmates would joke "that he was the only man in New Haven who could fart out of his face." He had earlier run away from home at 13, trying to be a drummer boy in the Spanish-American War. He published his first book, <u>Hike and the Aeroplane</u>, under the pseudonym Tom Graham. He complained that, 'in America most of us ... are still afraid of any literature which is not a glorification of everything America,' in his 1930 Nobel Prize acceptance speech. In 1926, he won and rejected the Pulitzer Prize for his work <u>Arrowsmith</u>. For 10 points – name this American author of works such as <u>Elmer Gantry</u>, <u>Main Street</u>, and <u>Babbitt</u>.

2. So famous was his marksmanship that when a schoolteacher commented on his lack of education, his father replied, "Let the girls do the spelling and [he] will do the shooting..." He served with the British during the French and Indian War as a wagon driver and after the defeat at the Battle the Monongahela (Maw-na-ga-hay-lee), he returned home and married Rebecca Bryan. On a long hunting trip, he discovered more fertile land and abundant game to the west so he packed up his family and traveled through the Cumberland Gap into Kentucky. For 10 points – name this early American pioneer, whose was "tough as a mighty oak tree", from the 'heel of his rawhide shoe' to 'the coonskin cap on the top.'

answer: Daniel Boone

answer:

Sinclair Lewis

- 3. In ancient chronicles, it was referred to as Uucyabal, meaning "Seven Great Rulers", possibly because the city's political organization was structured by a "multepal" system, or rulership through council. As there are no above-ground rivers, the three natural sink holes, or cenotes, providing plentiful water year round made it attractive for settlement. The "Cenote of Sacrifice" was sacred to the worshippers of the rain god Chaac. Other landmarks in the city included the Temple of the Warriors, and, as should be present in any Mesoamerican city, The Great Ball Court. Located in the northern center of the Yucatan Peninsula for 10 points is what city, a major regional center of the Mayan empire?
 answer: Chichen Itza
- 4. Made of acacia wood, it was a cubit and a half broad and high, and two and half cubits long. On each of the two sides were two gold rings in which were placed two wooden poles. On top were two cherubim with their faces turned toward one another; their outspread wings formed the throne of God. It was covered all over with purest gold. Its upper surface or lid, the mercy seat, was surrounded with a rim of gold. The Church of Our Lady Mary of Zion in Axum, Ethiopia, claims to have it in a vault. It disappeared after the Babylonians sacked Jerusalem. For 10 points name this container sacred to the Israelites in which rested the stone tablets containing the Ten Commandments.

answer: The Ark of the Covenant (Accept aron habrit, Ark of God, Holy Ark, Ark of Testimony)

5. Its most common cause is standing in water infested with *Trichophyton rubrum* and *Trichophyton mentagrophytes*, two of the most common organisms to blame for this condition. Its symptoms include scaling, flaking and itching, and it affects nearly 15% of the population. The infection can spread to other parts of the body such as the armpits, knees, elbows and the groin, in which case it's referred to as tinea cruris (TIN-ee-uh KROOR-is) or "jock itch". For 10 points – what type of fungal infection might John Madden cure with some tough actin' Tinactin?

answer: athlete's foot (Accept tinea pedis)

6. Before April 27, 2006, it was only referred to by the code name of Revolution. It's the only product that does not contain the manufacturer's name as part of the product's name in that company's history. The last two characters of the name are meant to resemble two people standing side by side, representing players coming together, as well as the console's unique controllers. For 10 points – name this 5th generation gaming system developed by Nintendo which has outsold both the Xbox and PS3 this year.

answer: Wii

7. Washi is the predominant paper used as it is generally tougher than ordinary paper made from wood pulp. Contrary to popular belief, this art form traditionally has often been less strict about conventions, sometimes cutting the paper during the creation of the design or starting with rectangular, circular, triangular or other non-square sheets of paper. The problem of flat-foldability in this pastime has been a topic of considerable mathematical study. For 10 points – name this Japanese art of paper folding.

answer: origami

8. Ceva's theorem deals with points lying on the sides of this and whether or not they are concurrent. Thales's theorem implies that if the circumcenter is located on one side of this, then the opposite angle is a right one. Menalus' theorem gives necessary and sufficient condition under which three given points, laying on the sides of the same type of polygon, lie on a line. It is also governed by the law of sines and the law of cosines. For ten points, what is this basic shape of geometry with three sides?

answer: triangle

9. This national park contains such geographical features as: Flathead River, Lake McDonald, Kintla Lake, Bird Woman Falls, Mount Cleveland, and St. Mary Lake. Although Lewis and Clark came within 50 miles of its location, the park was initially explored by George Bird Grinnell. A few years later, Henry Stimson and a few companions climbed Chief Mountain. This national park is famous for its "Triple Divide Peak" which is the hydrologic apex of North America. For 10 points, what park is named for the massive bodies of ice on its mountains?

answer: Glacier National Park

10. It cites 'a very knowing American of my acquaintance in London' and 'the famous Psalmanazar, a native of the island of Formosa' as authorities. At its beginning, the reforms which are actually being suggested are ridiculed, as this pamphlet is similar in structure to the satirical works of Juvenal. Many modern day readers unfamiliar with it being a satirical work do not recognize it as satire until they come to passages such as the following: "I grant this food may be somewhat dear, and therefore very proper for Landlords, who as they have already devoured most of the Parents, seem to have the best Title to the Children." For 10 points – name this pamphlet of sustained irony by Jonathan Swift in which it is suggested that poor Irish families could raise their income by selling their children to be eaten. answer: A Modest Proposal

BONUSES

1. For 10 points each, given the name of a famous work, give the author who wrote them:

A. The Bluest Eye

answer: Toni Morrison

B. Palace Walk, part of his Cairo Triology

answer: Naguib Mahfouz

C. Exodus and Trinity answer: Leon Uris

2. Peter and the Wolf is a well known children's composition by Prokofiev. For 10 points each, name the instrument that represents the character.

A. The duck

answer:

oboe

B. The Grandfather

answer:

bassoon

C. The wolf is typically played by French horns but traditionally how many are needed for the piece?

answer:

<u>3</u>

3. For 10 points each, name these quantities that are equal to the following:

A. This is equal to the force multiplied by the velocity of an object and is expressed in units of work.

answer:

nower

B. This equals the square of the velocity divided by the radius.

answer:

centripetal acceleration

C. This equals the torque divided by alpha or angular acceleration.

answer:

moment of inertia

4. For 10 points each, identify the famous naturalist.

A. This naturalist traveled the world in the HMS Beagle.

answer: Charles Darwin

B. This naturalist proposed similar ideas after the publication of Darwin's *Origin of the Species* and considered to be the Father of Biogeography.

answer: Alfred Russel Wallace

C. This man actually came up with the phrase "survival of the fittest" and not Darwin.

answer: Herbert Spencer
