1995 Guy Fawkes Eve Buzzer Explosion Questions by the Commonwealth of Independent Schools (Utah)

Tossups:

- 1. He had no name, or more appropriately, the name of "no-one". He wandered the seas, wreaking havoc on ships carrying munitions. He was a savior in his second novel, "The Mysterious Island", but had been more of a villain in his first appeance, in "20,000 Leagues Under the Sea". FTP, name this captain of the "Nautilus". answer: Capt. NEMO
- 2. Today, the comercial types of this alloy have a third metal, such as lead, zinc, phosphorus, manganese, or aluminum, added to the original two metals. Additionally, many alloys called by this name have zinc instead of tin. FTP, what is this alloy that gave its name to the first "Metal Age", and is traditionally composed of copper and tin? answer: BRONZE
- 3. This Englishman was a highly successful in business and retired a multi-millionaire at age 42. At his leisure he composed a work on economic theory that became the basic text of the classical school of English political economy. FTP who wrote the depressing "On the Principles of Political Economy and Taxation" in which he devised the first purely abstract theory of the operation of economic "laws", which earned him the title of "father of the gloomy science?" answer: David RICARDO
- 4. You probably think that World War I ended in 1918; in fact, however, it continued for two decades more, as the Treaty of Versailles neglected this country's fate. This country, whose motto is "Touch me if you dare", continued to fight against Germany, despite the handicap of not bordering on it. On September 25, 1939, this tiny country signed a peace treaty with Germany, bringing peace to Europe (except for the fact that World War II had just started). FTP, name this Pyrenean state, which fought Germany

for so long.

answer: ANDORRA

- 5. "The pale Usher--threadbare in coat, heart, body, and brain; I see him now". This not-so-famous passage begins the section "Etymology". Following this section is "Extracts". Finally, the first chapter, "Loomings", appears, opening with the famous phrase involving nomenclature and the oldest son of Abraham. FTP, name this famous Herman Melville book about a white whale. answer: _MOBY-DICK_
- 6. It's been said that you can't legislate morality; it's even harder to legislate mathematics. In 1897, however, the General Assembly of Indiana passed a law fixing the value of this constant to be an integer. Though it wasn't shown to be transcendental until 1882, even Archimedes knew it wasn't an integer. FTP, what is this mathematical constant, equal to half the circumference of the unit circle? answer: PI
- 7. He spent most of his long life as a tutor and companion to the Cavendish family, though he once tutored Charles II in mathematics. A forceful writer and pioneer of modern political science, his works include "Elements of Law" and "Philosophical Rudiments". But his most famous work is a 1651 defense of secular monarchy subtitled "The Matter, Form, and Power of a Commonwealth, Ecclesiastical and Civil". FTP, name this writer and thinker, who stated that self-interest and egoism was the root of all social conflict, and that life was "nasty, brutish, and short".

8. When he died, e e cummings said of him, "The only man, woman, or child who wrote a simple declarative sentance with seven gramatical errors is dead". His death also had controversy attached to it--it was widely rumored that he had been poisoned, but his wife would not allow an autopsy, and had the body cremated. Consequently, the truth of this president's involvement in the Teapot Dome scandal could not be positively established. FTP, who was this president, whose successor was Calvin Coolidge?

answer: Warren G. HARDING

- 9. This opera, which premiered in Dresden in 1843, is based on a legend by Heine. In it, a sea captain is condemned to sail the seas until he finds a maiden, faithful unto death. Unfortunately, he can only land once every seven years. Ultimately, this sets up a love triangle between the captain, Senta, and Eric. FTP, name this Wagner opera, which in German is called "Der Fliegende (FLEE gendah) Hollander". answer: _The FLYING DUTCHMAN_
- 10. In Arabic, the name for it is (DEEK al Room). Literally, that means "Roman rooster". However, to the early Arabs, Rome was Constantinople, so the name is actually quite close to what Americans call it. FTP, what is this large bird, that will be served nationwide in about 3 weeks? answer: TURKEY
- 11. After the heavy casualties at Breed's Hill, the British high command decided to find an alternate source of cannon fodder. King George III turned to his German connections to hire these mercenaries who came from all over Germany, but were given this generic single name since many of them came from a single principality. FTP, what is the name for these German troops, some of whom were captured at Princeton and Trenton?

answer: HESSIANS

- 12. This mineral is unique in that it can be spun and carded, like wool or cotton. This, combined with its near indestructability, led to its use in countless applications. Unfortunately, its indestructability also contributed to the fact that its dust is carcinogenic. FTP, name this fireproof material that is being removed from buildings by highly trained personel in full-body respirators. answer: ASBESTOS
- 13. His Baker Electric is in a museum, which is a testament to how well built the car was, as the double seat was taken up by his bulk, which was in excess of 330 pounds. Despite his size, however, he got elected president, but lost his bid for re-election, thanks to a Moose. FTP, who was this president, who later served on the Supreme Court? answer: William Howard TAFT

answer: William Howard IAFI

- 14. In 1929, at the age of 30, he was inaugurated president of the University of Chicago. In 1939 he unilaterally cancelled the football program at the University of Chicago, saying that to win at college football you had to cheat, and the University of Chicago would not cheat. For ten points who is this preeminient US educator, a founder of the Great Books program? answer: Robert Maynard HUTCHINS
- 15. Most instruments in this mucial group produce sound by the vibration of a reed, amplified by a column of air within a pipe that has holes along its length. FTP, name this family, the instruments of which are not necessarily made of wood.

 answer: WOODWINDS
- 16. His magazine sent him to cover the Gulf War in 1991. But he had a hard time getting any respect in the journalist pool because the name of his magazine meant "a large rock that moves around". FTP, who is this American humorist, whose books include "Parliament of Whores" and "Give War a Chance?"

answer: P J O'ROURKE

- 17. In 1898 he became head of a commission that identified the common housefly as a typhoid carrier. In 1900 he went to Cuba as head of a medical commission investigating the transmission of a tropical disease. FTP, who was the US surgeon and bacteriologist whose experiments on soldier volunteers demonstrated that yellow fever is propagated through the bite of a mosquito?
- 18. Sometimes, you just have to make sure someone is really dead. In this man's case, however, it was understandable--he had already survived several attempts on his life, and was widely beleived to be immortal. On the final night of his life, he ate several poisoned cakes, and drank several glasses of poisoned wine. When he still did not die, he was shot. However, he got up, choked Felix, one of his would-be assassins, and ran outside. He was then shot again, and brought back inside. Felix then proceeded to bludgeon him, just to make sure. Finally, his body was weighted down, and thrown in a frozen river. FTP, who was this monk, who wielded considerable power in the Romanov's court, in the last days of the Empire? answer: Gregory RASPUTIN
- 19. Sometimes, you have to resort to desperate measures to survive a seige. In this 1759 satire, "The Old Woman", as she was later known, had to lose a buttock to feed the defenders of a fort. She survived the attack, however, and, despite being the daughter of Urban X, ended up in the service of Cunegonde. FTP, Cunegonde was the beloved of the title character in what famous Voltaire work? answer: _CANDIDE_
- 20. In 1917, 50 members of the House of Representatives voted against US entry into World War I. In 1941, only 1 voted against entry into World War II. This made her the only member of Congress to vote against both World Wars. That she would have voted against the wars is not odd, as she was a pacifist; what is odd is that she only served 2 terms in Congress. FTP, name this Montana Congresswoman, the first woman to be elected to Congress. answer: Jeanette RANKIN
- 21. This title character was born just a few miles north and west of the most easterly point in the British Isles. Blunderstone exists today, but the "E" has been dropped. Even so, Barkis would still recognize the place. Yarmouth also exists today, but it has become "Great", and engulfs Gorelston. It is still far from Yarmouth to London, but a lad today could make it, especially if he had help from Betsy Trotwood. FTP, who is this character, who can be seen as largely autobiographical for Charles Dickens?

answer: _DAVID COPPERFIELD_

22. This African country was settled by former slaves of British loyalists after the American Revolution. Liberia, its neighbor, was comprised of slaves freed in the early 19th Century. FTP, name this country whose capital is Freetown.

answer: SIERRA LEONE

23. This unit was created so that force in the MKS system could be defined independent of weight. It is defined as the force that will give a mass of one kilogram an acceleration of one meter per second per second. In practical terms, this means that a kilogram of mass weighs about 9.8 of these units. FTP, name this unit, which is named after the 17th century physicist and mathematician who developed the basic laws of motion.

answer: the NEWTON

24. "Aaagh!!! Hot potato, apple cores, and that will make ammends". With the appropriate hand guestures, this is supposed to ward away the bad luck that actors feel accompanies every mention of

this play. Since the play includes bloody murder and moving forests, bad luck just might accompany it. FTP, name this Shakespearean work that is always referred to as "the Scottish Play". answer: _MACBETH_

25. He was making \$100,000 an episode, yet he quit 1994's most successful TV drama to make movies. FTP who played _NYPD Blue_'s detective John Kelley? answer: David CARUSO

10. Tanks have always proved tricky to destroy. In World War 2, the "Big Three" and the two foes they all fought came up with some unique anti-tank weapons. Given below are descriptions of three of these weapons. FTP each, tell me who used each of them.

- 1. The No. 74 (ST) hand grenade, known as the "sticky bomb", had a special feature -- an adhesive coating which enabled it to stick to the side of an enemy tank. It also enabled it to stick to the thrower, which was generally what happened. Once stuck, the soldier then had a considerate 5-second delay in which to free himself. Even if he succeeded, only a practised shot putter could hope to lob the one-third stone bomb far enough away to ensure his own safety. It was soon discontinued. answer: Great BRITAIN or ENGLAND
- 2. Next, we have the Lunge Bomb, which comprised a long pole with a grenade and three spikes attached. To use it the infantry man approached the tank, rammed the spike through its side, and retired to a safe distance. However, since the safety pin had to be removed before this operation could begin, the ramming action almost invariably caused the bomb to detonate before the soldier had time to run away.

answer: JAPAN

3. Lastly, we have the dog mine. The idea was to train the dogs to associate food with the underneath of tanks, in the hope that they would run hungrily beneath advancing Panzer divisions. Bombs were then strapped to their backs. However, they associated food only with their own tanks, and forced an entire division into retreat. The plan was abandonded on the second day of this country's involvement in the war.
