Round 12

1996 ACF Regionals Questions by Dartmouth

1. In this play two characters debate the mathematical odds of salvation based on the four gospels, and its longest speech is made by a character who cannot speak for the rest of the play. In a plot described as "Nothing at all happens - twice," the audience should know the ending since the title character isn't on the cast list. FTP identify this 1952 work of absurdist theater by Samuel Beckett.

Answer: Waiting For Godot or En Attendant Godot

2. Discovered by William Ramsey and Morris Travers in 1898 and extracted from the distillation of liquid air, its main use is in high-intensity light sources such as stroboscopic lights. Though a noble gas, it can make compounds with chlorine, flourine, and oxygen. FTP identify this element whose name is from the Greek for "stranger" and which has an atomic number of 54 and a symbol of Xe.

Answer: Xenon

3. In 1803 he became the first man to circumnavigate Australia traversing the Great Barrier Reef by the passage which now bears his name. Captured by the French on Mauritius for 7 years he worked out the calculation for the deviation of a compass needle due to the ship's iron parts. FTP name this British explorer, who gave his name to several Australian rivers, islands and most recently to the Melbourne tennis center where the Australian Open is played.

Answer: Matthew Flinders

4. Born in 1841, he spent a period of exile in the United States because he opposed Napoleon III. Brought down by the Panama Canal scandal, his comeback began when his newspaper published Emile Zola's "J'accuse.' His first term as premier lasted from 1906 to 1909. FTP identify this French statesman, known by the nickname "the tiger" and for taking a hard line against Germany during the Versailles negotiation.

Answer: Georges Clemenceau

5. A friend of the poets H.D. and T.S. Eliot, he wrote a good deal of poetry himself such as in the collections, Cathay, Lustra, and A Lume Spento. Considering himself a Jeffersonian Democrat, he had to stand trial in 1945 for treason and spent a dozen years in a mental hospital. FTP identify this American poet, best known for such works as Homage to Sextus Propertius, Hugh Selwyn Mauberly, and his "Cantos."

Answer: Ezra Pound

6. He and his twin brother, Radamanthus, were born of Europa. After his death, he served as a judge in the underworld, and in between, Poseidon helped him acquire a powerful navy with which he dominated Greece from his palace in Knossos on the island of Crete. FTP, identify this mythical king best known for his labyrinth and minotaur.

Answer: King Minos

7. The seven-letter word comes from the genus of bacteria that caused the mild disease cowpox, since people who contracted that disease were immune to the deadly disease smallpox. The bacteria, in turn, got its name from the Latin word for cow. FTP identify this word, used to describe a substance that provides protection from a specific pathogen.

Answer: vaccine (do not accept ■vaccination■)

8. Jacopo was a Gothic painter. His son Gentile, a famous Venetian artist, is best known for a portrait of Ottoman sultan Mehmet III. However, Jacopo's other son, Giovanni, is far better known. He was a mentor to Giorgione and Titian, and created a wide variety of Madonna paintings. FTP identify the common surname of this famous family of artists.

Answer: Bellini

9. The leader of the group was believed to be Heywood Patterson and he was sentenced to seventy-five years in prison. In 1948, he escaped to Michigan where the state government refused to extradite him to Alabama. Three others were paroled by 1946 and five others never went to jail because their indictments were dropped. FTP name this group of nine youths who were arrested in 1931 for the alleged rape of two white girls, one of whom later recanted her story.

Answer: Scottsboro Boys

- 10. The country named after it doesn't contain any of area this empire once held. Most of its people were Mande-speaking Soninde, who became rich and reached the height of their power in the late 10th Century and flourished until they were defeated by the Almoravids. FTP name this first great West African empire, which was supplanted by Mali, and gave its name to the nation with its capital at Accra. Answer: Ghana
- 11. Near the end of this film, the two main characters argue over a drug score. Appropriate, considering that the main actors are still arguing over the profits derived from this breakthrough 1969 film, which grossed \$60 million while being shot for \$400,000. FTP identify this classic of hippie rebellion, which featured Jack Nicholson, Peter Fonda, and featured, as actor, director, and co-writer, Dennis Hopper.

Answer: Easy Rider

12. This peasant's son's amazing mathematical abilities might have gone unrecognized had the Duke of Gottingen not given him a scholarship. This inventor of the electric telegraph was responsible for advances in number theory and developed new computation techniques he tried to apply in celestial mechanics, but he is perhaps most well known for his dabblings in electric and magnetic phenomena. FTP name this German who gave us the law to find fluxes through closed surfaces and for whom the unit of magnetic induction has been named.

Answer: Karl Friedrich Gauss

13. The son was a playwright who wrote "Le demi monde" and "The Money Question." The father was a prolific writer who has about 1200 volumes to his name and who wrote the wildly successful "Henri III et sa cour" for the Comedie Francaise living until his death in 1870 at his estate near Paris which was called Monte Cristo. FTP give the common name and you will have named the author of "The Three Musketeers".

Answer: Alexandre Dumas

14. This influential medieval order derives its name from the Latin for marshy place. It was founded by monks who wanted to retire to a life of austerity in a marshy area of Burgundy in 1098. For 10 points, name this order which was revived by Bernard of Clairvaux who in 1112 established the second house of this order at Clairvaux to support its dwindling predecessor at Citeaux.

Answer: Cistercian order

15. Born in 1822, he spent the early part of his life amassing a fortune through business becoming a US citizen in 1850. 20 years later though, he was on the Hissarlik hill in Turkey trying to fulfill his boyhood dream. FTP name this man who conducted digs in Ithaca and Mycenae who is credited for first excavating the site where Troy is supposed to have been located.

Answer: Heinrich Schliemann

16. She criticized Bolshevism with the quote "If I can't dance, I don't want to be part of your revolution." She was deported to Russia from America for hindering the World War I draft, and earlier had conspired to assassinate Henry Clay Frick during the Homestead Strike. FTP, identify this famous U.S. feminist and anarchist.

Answer: Emma Goldman

17. California gets drenched with rain, New England becomes unseasonably warm, and weather in

Europe is affected as well. These phenomena are caused by an extension of an eastward-flowing equatorial current displacing the cold Peru current, the result being higher water temperatures in the South Pacific. FTP identify this event, named, due to its occurence near Christmas time, from the Spanish for "the child."

Answer: El Nino (accept : Southern Oscillation or ENSO)

18. The name's the same: one was emperor of the Eastern Roman Empire from about 474-491 A.D. who was expelled from Constantinople in 475 but suppressed the revolt with the help of Theodoric, the Ostrogoth. The second was a 5th century B.C. philosopher, a disciple of Parmenides and teacher of Pericles who paradoxically postulated an arrow that moves yet does not move. FTP give the common name

Answer: Zeno

19. As the playwright of such satirical burlesques as Pasquin and The Historical Register, he was such a nuisance to Prime Minister Robert Walpole that the Licensing Act of 1737 was passed. So he wrote anti-Stuart political pamphlets and satirical novels, including the ironic novel, Jonathan Wild parody of Samuel Richardson's Pamela. FTP identify this writer, best known for the novel Tom Jones.

Answer: Henry Fielding

Answer: Jereboam (N) and Reheboam (S)

3. Name the two tribes of Israel that were in the Southern Kingdom, five points for 1, fifteen for 2.

Answer: <u>Judah</u> and Benjamin

4. Identify these poets of Latin America FTP each.

1. This Mexican's poetry collections include Sun Stone and he has also written books of essays such as The Labyrinth Of Solitude.

Answer: Octavio Paz

2. The exile period of this Chilean poet was chronicled in a recent film.

Answer: Pablo Neruda (or Ricardo Eliezer Neftali Reyes

y Basoalto

3. Born Lucila Godoy Alcayaga, this Chilean poet's collections such as Ternura and Tala helped her to win the 1945 Nobel Prize in Literature.

Answer: Gabriela Mistral

5. Given a famous dam, name the river on which it is located for ten points each. Five points if you need the country or countries.

1. 10: The Aswan Dam

5 : Egypt

Answer: Nile River

2. 10: The Grand Coulee Dam

5 : United States

Answer: Columbia River

3. 10 : The Itaipu Dam

5: Brazil and Paraguay

Answer: Parana River

- 6. Given a brief description of a scientist's name and the quantity that an SI unit named after him measures name the scientist, 10 points each.
- 1. This scientist was led to his well known law by observing an analogy between electric current and heat flow. The SI unit measures resistance

Answer: Georg Simon Ohm

2. This Croatian born American scientist made several contributions to high voltage technology and designed the power station at the Niagara falls. The SI unit measures magnetic field.

Answer: Nikola Tesla

3. This German physicist at Gottingen worked on magnetic phenomena and devised his own system of electrical units. The SI unit measures magnetic flux.

Answer: Wilhelm Eduard Weber

8. Answer the following question about kings named Charles, FTP each.

1. He was the last Charles to be king of France.

Answer: Charles X

2. He was the last Charles to be king of England.

Answer: Charles II

3. This Charles is the current king of Sweden.

Answer: Charles XVI Gustav

- 9. Identify the author from a list of works on a 30-20-10 basis.
- 1. Joseph and His Brothers and Reflections of a Non-Political Man
- 2. Sleep, Sweet Sleep and Buddenbrooks
- 3. Death In Venice and The Magic Mountain

Answer: Thomas Mann

- 10. Given a description of a Corollary to the Monroe Doctrine, identify the person for whom it is named, 15 points each.
- 1. Named after an Attorney General who served under Grover Cleveland, it stated the United States had the right to intervene in international disputes in the Western Hemisphere.

Answer: Olney Corollary

Answer: The Winter's Tale

3. Subtitled What You Will, featuring a character who's in drag most of the play, people who think Shakespeare was a secretly gay often cite this comedy as evidence.

Answer: Twelfth Night

- 15. Name the author from a list of works on a 30-20-10 basis.
- 1. Those Barren Leaves and After Many a Summer Dies the Swan
- 2. Antic Hay, Ape and Essence, and Point-Counterpoint
- 3. Brave New World and Brave New World Revisited

Answer: Aldous Huxley

16. While Johannes Rydberg≡s empirical formula for predicting the spectrum of atomic hydrogen is mathematically elementary, it is quite literally the codification of over a half century s work by a series of dedicated spectroscopists in recording the various spectral lines of hydrogen, lines which are now named in honor of the scientists who tabulated them. For five points each, and a bonus five for correct order from the series terminating at the hydrogen ground state to the series terminating at the fourth excited state, give the names of these first five spectral series of hydrogen.

Answer (in order): Lyman, Balmer, Paschen, Brackett, Pfund

- 17. For 10 points each, name the philosophers who wrote the following.
- 1. Dialogues Concerning Natural Religion
- 2. Meditations on First Philosophy
- 3. Three Dialogues Between Hylas and Philonius
- Answer: David Hume
- Answer: Rene Descartes
 - Answer: George Berkeley
- 18. Given the country, name its main representative at the 1815 Congress of Vienna for ten points each.
- 1. Great Britain
- 2. Prussia
- 3. France
- Perigord

- Answer: Viscount Castlereigh
- Answer: Prince Karl von Hardenburg
- Answer: Charles Maurice de Talleyrand-
- 19. Name the opera from clues on a 30-20-10 basis.
- 1. Though its composer was obsessed with its completion in the last days of his life, he fittingly only lived to completed the score through the death of Liu, a young slave girl who chooses death rather than to reveal the name of a secret suitor.
- 2. The characters of grand chancellor, chief marshall and chief cook to the emperor Altoum make of the dramatic trio of Ping, Pang, and Pong.
- 3. First performed at La Scala on April 25, 1926, a year and a half after Puccini's death, it is the story of Calaf, a Tartar prince in disguise, seeking the hand of the title character, the vengeful princess of China who requires the answers to three riddles or the head of any man who would be her suitor.

Answer: Turandot

- 20. Answer the following about the 100 years war for the stated number of points.
- 1. For 10 points, victory in which naval battle by the British early on gave them control of the English channel?

Answer: Battle of Sluys

2. Before the battle of Crecy, the English were trying to advance towards the high ground of Crecy to make their stand when the were stopped because all the bridges over this river were guarded by the

French. Then a prisoner showed them how the river could be traversed at low tide. For 10 points name this northern French river which was also the site of a bloody World War I battle.

Answer: The Somme

3. For 10 points name the battle after which Henry V coerced Charles VI of France to make him marry his daughter to him, bequeath the French throne to their child, and to disinherit his own son.

Answer: Battle of Agincourt

21. 30-20-10 name the literary figure:

- 1. This man was knighted in 1915 by George V but he renounced his knighthood following the 1919 massacre in Amritsar, India.
