

BOSTON UNIVERSITY'S TERRIER TUSSLE V
Yale Locks Tossups

1. This BU alum was found in civil contempt of court in an Ocala, Florida federal courthouse earlier this month. Should he fail to return \$3 million from the sale of a client's stock, and another \$18 million in stock he still has, he could face 6 months in jail. Not good for a defense attorney. FTP name this West Palm Beach based attorney and member of the OJ Simpson dream team.

A: F. Lee BAILEY

2. "We're kind of stupid that way," said a title character from this, as he made his first appearance, referring to his species's affinity for tuna sandwiches. Nonetheless this continued on for ten more years, ending in 1995. For 10 points, name this strip by Bill Watterson.

A: CALVIN AND HOBBS

3. He wrote "Shamela," a scathing parody of Samuel Richardson's archetypal Pamela. And he also wrote "Tom Jones" and "Joseph Andrews," both similar to Pamela, except that the pure characters are men. FTP, name this author of "Tom Thumb."

A: Henry FIELDING

4. The name of this state comes from an Algonquin Indian term meaning "river of the big canoes." In modern times, however, this state has become more famous for being the origin of Lewis and Clark's journey and for being the birthplace of President Truman. For ten points, identify the "Show Me" state.

A: MISSOURI

5. He originally trained to be a veterinarian. Eventually, he turned to chemistry, where he was the first person to propose that carbon formed tetrahedral bonds, as well as the theory of chirality. Yet his most important contributions were in the field of physical chemistry, for which he received the first Nobel Prize. For 10 points, name this Dutch scientist.

A: Jacobus Hendrickus VAN'T HOFF

6. It is now Iznik, Turkey. It was home to the seventh ecclesiastical council, which convened to solve the Iconoclastic Controversy. For 10 points name this ancient city which was also the site of the better known AD 325 council, the first held, which gave us a well-known Creed.

A: NICAEA

7. He was an envoy to Constantinople in 1799. Interested in art, he got permission from the Turks to remove antiquities. He did so from 1802 to 1812, mostly from the Parthenon. For 10 points, name this noble whose name is associated with these pieces of art now housed in the British Museum.

A: Thomas Bruce, 7th Earl of ELGIN

8. In this era of downsizing, it is looking to cut about 10 percent of its permanent staff over the next two years. Facing a \$400 million deficit from this past year, it could get out of the red if the \$2.3 billion in dues ever get paid. For 10 points name this organization, which would be helped if it could get the \$1.5 billion owed to it by its biggest debtor, the US.

A: UNITED NATIONS

9. This architectural style featured colorful neoclassical design and influence, often combined with oriental motifs. It was most popular in England from 1811 to 1830. For 10 points name this style which takes its name from the period before the reign of King George IV.

A: REGENCY style (do not accept chinoiserie- it's different)

10. Though California has more than three times as many Indian reservations as this state, the total amount of acreage is much greater here. In fact, this state has over 19 million acres of tribally owned land, and will have a professional baseball team beginning in 1998. For ten points, name the home state of the Navajo and Apache tribes.

A: ARIZONA

11. It's the abbreviation for the biochemical equivalent of an atomic mass unit. In Latin, it's a form of the verb "to give". And to a Russian, it means "until" as in "until we meet again". FTP, what is this two-letter word, which, when spelled differently in Russian, means "yes"?

A: DA [Russian for "goodbye" is "da svedanya"]

12. Wounded three times during the Civil War, he contributed such memorable legal phrases as, "Three generations of imbeciles are enough," "free market in ideas," and "The Fourteenth Amendment does not enact Mr. Herbert Spencer's Social Statics." Name, for 10 points, this legendary Yankee Justice.

A: Oliver Wendell HOLMES, JR.

13. The last word of its title may be a pun on the term used to describe the visual and aural eavesdropping without understanding the context that marks this comedy. For 10 points, name this Shakespearean play in which Claudio, Benedick, and Beatrice are manipulated by this practice.

A: MUCH ADO ABOUT NOTHING

14. This company has made VCRs, light bulbs, and stereo components, but it is perhaps most famous for its audio inventions. In 1963 it brought us the audio cassette and in 1972 the video laser disk. For ten points, name this Dutch company that also helped create the CD player.

A: PHILLIPS Co.

15. He spent the early part of his life as a juvenile delinquent in the South, but managed to graduate from Georgetown in 1961. He advised Presidents Nixon, Ford, and Reagan, and co-hosted CNN's Crossfire. For ten points, name this presidential candidate, a self-proclaimed "strong and authentic" abortion foe.

A: Pat BUCHANAN

16. It was the result of a legislative act of 1830 and the Treaty of New Echota in 1835. Four expeditions from 1839 to 1839 marked this event, which took the people concerned from the southeast to a new territory in Oklahoma. For 10 points name this forced march of the Cherokee, which resulted in roughly 4000 deaths.

A: TRAIL OF TEARS

17. All of them contain arginine. Bridges formed from cysteine help hold

them together. When they contain proline, they are forced to have "kinks." And some have such tight spirals that certain components such as methionine are hard to fit in. For 10 points, name these biological molecules, most of which function as enzymes, the vast majority of which contain just twenty amino acids.

A: PROTEINS

18. This sculptor created a ruckus in the Paris Salon when he exhibited one of his earliest sculptures, "The Age of Bronze." It was so lifelike that it was rumored to have been cast from a living model, so the sculptor was forced to defend his methods. For 10 points, name this French sculptor most famous for the 3 foot tall "The Thinker."

A: Auguste RODIN

19. Despite his participation in a massive advertisement campaign in 1992, this man did nothing at the 1992 Olympics in Barcelona. He holds the world record in the decathlon, but competition with Dave was not enough to strike gold in Spain. For ten points, name this former Reebok spokesman and athlete.

A: Dan O'BRIEN [prompt on "Dan"]

20. It is bordered by the Kurile Islands, Sakhalin Island, and the Kamchatcha Peninsula. For 10 points, name this northern Pacific sea, one of the largest in the Pacific Basin.

A: Sea of OKHOTSK

21. They tell the story of the crucifixion of Christ, and are generally adapted from the various gospels. Johann Sebastian Bach created a massive musical setting for that of St. Matthew. The most famous one is held in the German city of Obergammerau. For 10 points, name these plays, generally performed around Easter.

A: PASSION plays

22. One of his first starring roles was in "Return of the Killer Tomatoes." He's also done TV stints on _Roseanne_, _The Facts of Life_, _Sunset Beat_, _Sisters_, and a sitcom bearing the same name as his current show. For 10 points, identify this actor who has gained fame as Dr. Douglas Ross.

A: George CLOONEY

23. He conducted his campaigns entirely from home, because he refused to leave his invalid wife. For 10 points, who still managed to win the Presidency twice with promises of hard money and a full lunch pail, and the backing of Mark Hanna?

A: William MCKINLEY

24. One gram of table salt in 500 liters of water. A candle flame at 50 kilometers on a clear, dark night. The tick of a watch from 6 meters in quiet conditions. These are all, for 10 points, what minimum thresholds of sensory input needed to be registered by the brain?

A: ABSOLUTE thresholds

25. Ralph [rafe] Vaughan Williams' "A Sea Symphony" is based on several poems by this American poet. His poem "When Lilacs Last in the Dooryard

Bloom'd" was used as the libretto for the Hindemith Requiem. For 10 points, name this author of "Songs of Myself".

A: Walt WHITMAN

26. Although his historical acuity could be questioned after reading such chapters as, "How Justinian killed 1 trillion people," what court historian, for 10 points, has gained everlasting fame with his polemic against Justinian and Theodora in The Secret History?

A: PROCOPIUS

27. While flooding in California has recently made large portions of California an island, some geologists predict that within the next twenty million years, large portions of California will become an island headed towards Alaska. So says, for 10 points, which theory that states that the land masses of the Earth are in constant--albeit almost infinitesimally slow--motion.

A: CONTINENTAL DRIFT or PLATE TECTONICS

28. For a quick 10 points, given a number x , what is the smallest power of x that simultaneously has a square, cube, and fourth root?

A: $_{12}$ th power

29. We have absolutely no attested records of this language, though linguists are pretty sure that they know how this language is constructed. And anthropologists know how the people who spoke it must have lived, even if they don't know where that was. For 10 points, name this language, the common ancestor of Tocharian, Albanian, Sanskrit French, Russian, and English.

A: Proto-INDO-EUROPEAN_ [ACC: $_{P-I-E}$]

30. Revelations of her raking in over \$800,000 in speaking fees makes this woman's husband look more presidential, inasmuch as she is now in that First Lady with questionable financial background mold. For 10 points name this woman, former head of the American Red Cross and Transportation Secretary under George Bush, wife of the oldest GOP candidate.

A: $_{E}$ lizabeth "Liddie" DOLE (prompt on "Dole")

BOSTON UNIVERSITY'S TERRIER TUSSLE V
Yale Locks BONUSES T5

NOTE: THIS IS A VISUAL BONUS. THE SCORER SHOULD HAND THE ATTACHMENTS LABELLED "A", "B", AND "C", ONE AT A TIME TO THE TEAM ANSWERING.

1. 30 POINT BONUS. It's time for a spectroscopy question. Given a spectrum, identify the type of spectrum for 10 points each.

- * Spectrum A A: UV or ULTRAVIOLET
- * Spectrum B A: IR or INFRARED
- * Spectrum C A: NMR or NUCLEAR MAGNETIC RESONANCE

2. 30 POINT BONUS. _Friends_ backlash time. Given the embarrassing movie role, name the _Friends_ actor. Note: giving the _Friends_ character name as an answer is not acceptable!

- * Tory in _Leprechaun_ A: Jennifer ANISTON
- * Anthony Manetti in _Lookin' Italian_ A: Matt LEBLANC
- * Louisa in _The Unborn_ A: Lisa KUDROW

3. 30 POINT BONUS. For 10 points each, identify the software company that publishes the newest version of each of the following programs.

- * Pagemaker A: ADOBE
- * WordPerfect A: NOVELL
- * Canvas A: DENEBA
