

TRIPLE Q QUESTIONS ACADEMIC GAZETTE

The Premier Monthly Magazine for Quiz Bowl Coaches

SEPTEMBER 1996

VOL 1/1

WELCOME

**TO THE NEWEST AND MOST USEFUL TOOL
FOR QUIZ BOWL COACHES EVERYWHERE!!!!**

We are proud that you are among the first in the nation to subscribe to the newest and most useful tool to come along in years for Quiz Bowl Coaches. Each month the Academic Gazette will come straight to your school. Each issue will contain over 500 questions to use for practicing your team. You can never have too many practice questions!

In addition, each month you will receive News in the World of Quiz Bowl including Upcoming Events and Invitational Tournaments, News from the States, and well as helpful articles by proven professionals in the world of quiz bowl. So let's gear up for another successful year of team building, practice, and competition.

INSIDE THIS ISSUE

**STARTING A QUIZ BOWL TEAM
THE EAST TEXAS STATE FAIR ACADEMIC RODEO
350 VARSITY PRACTICE TOSSUPS
150 JUNIOR VARSITY PRACTICE TOSSUPS
UPCOMING TOURNAMENTS AND EVENTS**

Publication Information:

Triple Q Questions Academic Gazette is published monthly from September to May by Triple Q Questions, a national quiz bowl supply company. Subscription price is \$95 per year with all subscriptions running from September to May.

All material, including all questions, published in the Triple Q Questions Academic Gazette is protected by copyright.

Solicitation of Articles:

Triple Q Questions encourages experienced quiz bowl coaches and other professionals to submit articles for publication in the Academic Gazette. All articles must be on topics related to quiz bowl or academic excellence. There are a variety of methods quiz bowl is administered across the nation and we believe the Gazette can become a forum for ideas and information sharing.

Articles may be submitted for publication to Triple Q Questions, P.O. Box 305, Vienna, IL 62995-0305 OR faxed to (618)949-3888. You may also e-mail information to RAllen1072@aol.com.

Triple Q Questions is currently seeking experienced quiz bowl professionals who wish to write articles on a semi-regular basis. All interested parties should contact us at the address, phone number, or e-mail address above.

Articles published in the Triple Q Questions Academic Gazette do not necessarily reflect the views or opinions of Triple Q Questions or its owners.

All material published in the Triple Q Questions Academic Gazette, including all questions, are protected by copyright.

SEND US YOUR INFORMATION!!!!

If you have information on an invitational tournament, results of a tournament, convention, educational opportunity, or other activity which would be of interest to others in the realm of quiz bowl, please send these items to us.

STARTING A QUIZ BOWL TEAM

by Regina and Rick Allen

September is traditionally the time a quiz bowl coach's fancy turns to starting a successful team. Many new coaches inherit the job from someone else who either retired or retired from the field of academic competition. The task can seem a bit overwhelming at first, but it does not have to be. Here are a few tips to help the new coach get off to a successful start.

- 1) First of all, you must realize (though you may be among the few who do) that academic competition is just as important and deserving of your school's resources as any other activity including athletic activities. While few athletes go on to use their athletic abilities in professional careers, it is safe to say that all of the students participating in academic competition will use their academic abilities in their professional careers.

Do NOT be discouraged by the amount of resources available to you. The greatest coaches are usually the ones who have had to get by on their own. Big budgets are practically unheard of for academic teams. Sure, you can try, but do not expect miracles overnight. You've no doubt heard the old saying "Where there's a will, there's a way!" It will apply to you. Go ahead, recruit a team, start practicing, enter some competitions, and interest will start to be created. Administrators will begin to pay attention. Some parents are always interested in what their children are doing. This will be a novel and unique activity - at least, the kids won't come home sweaty and dirty (well, not usually!)

- 2) Unless your school has had a successful quiz bowl team in the past, you will have to recruit a team. This may be difficult as quiz bowl activities often compete for the attention of students with football, basketball, cheerleading, Spanish Club, music, and other extra-curricular activities. One way to recruit is to approach teachers of various subjects in your school - ask for their opinions. Another teacher may have developed a rapport with particular students that you have not - take advantage of this. Speak to other clubs about quiz bowl activities - talk about tournaments and the excitement of competition.
- 3) You will probably want to have tryouts for the team. How does a coach select a successful team? One of the keys here is variety. Most states have 4 or 5 members on a team, though you will want to recruit at least twice this number. You will need to have a team composed of students with various strengths. No student is going to be an "expert" on all subjects. You will need students with strengths in science, mathematics, social sciences, language, literature, as well general knowledge. Sometimes the best quiz bowl players are not the ones with the best GPA. Instead the best players are often above average students with varied interests (not necessarily your "straight A students"). An example of this might be a good chemistry student who enjoys reading about the Renaissance period.

When you have tryouts for your team, use an electronic lockout system. This will demonstrate how the student will perform in actual competition. Written tests are good at measuring knowledge, but unless competition in your area consists of written tests, this will not be a good measurement.

Triple Q Questions has developed a software package, Quiz Doctor, to help in diagnosing team strengths and weaknesses. This is an excellent tool to use for selection of a team because it simulates actual quiz bowl competition and provides graphic results for you of each student's results.

STARTING A QUIZ BOWL TEAM

(continued)

- 4) Schedule your first practice session no later than early September, if possible. After-school is an excellent time to practice. Let the kids have fun! Practice one group of students against another. This will further help you to determine strengths and weaknesses. It is helpful if a third party can keep an individual tally of statistics by student. Not only watch for correctness of answers, but also pay attention to questions in which the student rang in with an incorrect answer. Quickness on the "buzzer" can be a virtue, but if done improperly, it can be fatal. Some students who are not quick on the buzzer may be lifesavers when it comes to bonus questions.
- 5) It will take some money to operate a team. Talk to your administration - they may be more receptive than you might think to increasing the team's budget. Talk up the opportunities with every member of the community you come in contact with. Many school teams are supported by academic booster clubs. Fund-raising is also an option for monetary support.
- 6) Obtain practice questions. Thousands of questions can be obtained from a quiz bowl supplier for a reasonable price. Most questions are timeless and can be used year after year with different teams.

Obviously, your team will need an electronic lockout system. Do not be discouraged by high prices. An efficient system can be obtained for under \$300. There are many different kinds of lockout systems on the market with many different features, however, many of the "bells and whistles" are not required.
- 7) Sign up for competitions with other schools early in the year. It is important to get a new team competing to encourage interest among your team's members. Waiting until the team gets perfect may cause members to lose interest. There is probably a league of schools in your geographic area who compete on a regular basis. Inquire about membership in their league and participation in their competitions.
- 8) Encourage parent and community involvement in unique and novel ways. One idea that has worked successfully is to have a competition during half-time at a basketball game. Another is to have the students compete against the teachers and/or parents. Make quiz bowl fun for students and everyone else involved.
- 9) Consult other coaches. Most professionals are willing to share their ideas and provide tips to new coaches. The most successful teams are often the ones in which the coach was willing to listen to some sound advice from a friend.
- 10) Most importantly, never give up! Quiz bowl is a valuable and worthwhile activity for today's students. Besides providing them with a sense of achievement, it is preparing them for the tough reality we call life.

UPCOMING INVITATIONAL TOURNAMENTS

Triple Q Questions Academic Gazette will list any not-for-profit tournament in this space. Send information to: Triple Q Questions, P.O. Box 305, Vienna, Illinois 62995-0305 or fax to (618)949-3888.

GEORGIA

Saturday, September 21, 1996 - Woodward Academy Academic Team Tournament

This tournament held in College Park, Georgia will have separate Varsity and Junior Varsity divisions of play. Both divisions play with the same questions so the JV competition is very tough. Last year, over 40 teams were hosted from 5 southeastern states in this tournament. Schools interested in participating should contact:

Martha Muir
Woodward Academy
P.O. Box 87190, 1662 Rugby Avenue
College Park, GA 30337

Saturday, December 14, 1996 - Brookwood Scholars' Bowl, Snellville

This tournament will be held at Brookwood High School. For more information, please contact J. R. Barry, Brookwood High School, 1255 Dogwood Road, Snellville, GA 30278.

Saturday, February 8, 1997 - Brookwood Junior Varsity Academic Bowl

This one is for students in grades 7 - 10 only. It will be held at Brookwood High School in Snellville, Georgia. Contact J.R. Barry at Brookwood High School, 1255 Dogwood Road, Snellville, GA 30278 for more information.

TENNESSEE

Friday, November 1 and Saturday, November 2, 1996

Vanderbilt ABC XII - Vanderbilt University, Nashville

For information, contact Darrell Frye at (615)421-6267

Saturday, January 18, 1997 - Halls High School Academic Challenge, Halls

This tournament is held at Halls High School in Knoxville, Tennessee. For more information, contact Sheri Webber at (423)922-7757.

MORE UPCOMING INVITATIONAL TOURNAMENTS

TENNESSEE

Saturday, January 25, 1997 - Riverdale Academic Tournament

This competition will be held at Riverdale High School in Murfreesboro, Tennessee. It will be for both Varsity and Junior Varsity levels. If weather is a problem, tournament will be rescheduled for February 1st. For more information, contact Carlotta Wright at (615)890-6450.

Friday, February 21 and Saturday, February 22, 1997 Lee College High-Q Tournament

This will be held at Lee College in Cleveland, Tennessee. Contact Dr. Robert Herron at (423)478-7174.

Friday, April 4 and Saturday, April 5, 1997 Tennessee High School State Academic Quiz Bowl Championship

This is the Tennessee State tournament. It is not, of course, an invitational, but we are including it here for informational purposes. It will be held at Tennessee Technological University in Cookeville.

OTHER STATES

There are 48 other states in the U.S. Most of them have some form of academic competition. Let's hear from the rest of you!!!

UPCOMING EVENTS IN QUIZ BOWL

GEORGIA

Saturday, October 12, 1996

GATA Annual Conference and Convention

This year's theme is "What Every Quiz-Bowler Should Know." The conference will be from 9 a.m. to 5 p.m. in Macon, Georgia. For more information, please contact Lizzy Sutton at Ware Magnet High School, 4650 Manor/Millwood Road, Manor, GA 31550 or Jill Dobson at Evans High School, P.O. Box 130, Evans, GA 30809.

KANSAS

Saturday, October 12, 1996

KASBC CLINIC

The Kansas Association of Scholars' Bowl Coaches (KASBC) will hold its annual Coaches Clinic at Hutchinson High School in Hutchinson, Kansas on October 12. Vendors will be present. For more information, please contact Nancy Tyrrell, United School District # 362, RR # 2, LaCygne, Kansas 66040.

KENTUCKY

Thursday, September 26 thru Saturday, September 28

Kentucky Governor's Cup

This annual convention is a very large gathering of quiz bowl coaches and other academic professionals. There are usually 800 to 1000 attendees. Seminars and workshops abound. There is also a large exhibit area where vendors display the latest academic products including questions, software, books, and electronic lockout systems.

The convention will be held at the Executive West Hotel in Louisville, Kentucky. For more information, please contact Katherine C. Hume, Executive Director, Kentucky Academic Association, 256 Academic Services Building, Kentucky State University, Frankfort, KY 40601. Phone (502)227-6546. There is a registration fee. All out-of-state coaches are welcome.

MORE UPCOMING EVENTS IN QUIZ BOWL

OKLAHOMA

Saturday, September 21, 1996 Oklahoma Academic Coaches Association

The Oklahoma Academic Coaches Association is hosting its fifth annual coaches conference at Redlands Community College in El Reno. The registration fee of \$30 includes lunch. Specialized training will be provided for new coaches by veteran coaches. There will be exhibits from vendors. Sessions include 30 Minutes with OSSAA, Networking and Exhibits, Rules Meeting, New Coaches, Views of Administrators, Secrets of Having an All-Stater Getting Involved in OACA, \$ for Academic Teams, Middle/Jr. High Coaching, Coaching a Team to the State Tournament, I'm an Academic Coach Now What?, Keeping Statistics, and Coaching Strategy.

SHOWCASING NON-TRADITIONAL ACADEMIC COMPETITION

There are many organizations other than schools which promote academic excellence. From time to time, we would like to feature these organizations in the Academic Gazette. If you are aware of any such organization, please let us know.

We congratulate the many outstanding educational efforts undertaken by organizations such as the East Texas State Fair. See article on the following page.

COMING NEXT MONTH

QUIZ BOWL ON THE INTERNET

ROUNDING UP ACADEMIC EXCELLENCE: THE EAST TEXAS STATE FAIR ACADEMIC RODEO

contributed by Betty S. Mallory

During its 81 year history, the East Texas State Fair Association has recognized the talents of their youth through the Future Farmer's Association and the 4-H Clubs. Recognizing that we are no longer a predominately agrarian society, Fair officials began to look for ways to reach into other areas of interest for their youth. In 1991 the Fair came up with the idea of working with the school systems to promote excellence in education and showcase the talents of their youth in all areas. School officials responded enthusiastically to this idea.

The Tyler Independent School District was the participating school district for the first two years of the Academic Rodeo, participating in four events: a Writing Contest, an Art Contest, Band and Choral Concerts, and Theater. In the ensuing years, participation has expanded to 12 Independent School Districts (37 campuses), 3 parochial schools, 1 group of Home Educators and 1 Children's School of Performing Arts.

Each year, at least one event has been added. Events for the 1996 Academic Rodeo are: Academic Challenge Quiz, Science Fair, Spelling Bee for 2nd and 3rd grades, Band and Choral Concerts, Art Contest, 4-H Style Show, Writing Contest, Theater Groups, and a General Agriculture Identification Contest. The schools are also given the opportunity to display any other programs that might be unique to their campus such as Head Start, Career and Applied Technology, Gifted and Talented Programs or any other programs each school might have.

The Academic Challenge Quiz is an exciting, fast-paced contest, highlighting the knowledge and quick thinking skills of the brightest junior high or middle school students. Teams of four students and two alternates from each school participate in the event. The American Association of Business Women (AAUW) - Tyler Branch co-sponsors and facilitates the event with the advice and consent of the Academic Rodeo Committee of the East Texas State Fair Association. Some questions and all equipment for this event are secured through Triple Q Questions. The school of the winning team receives a roving team trophy with each member of the winning team receiving a \$100.00 EE U.S. Savings Bond and each alternate receiving a \$50.00 EE U.S. Savings Bond.

A packet containing a description, rules, and regulations on all events is sent to all schools and educational groups in a 50 mile radius of the facility. To secure a copy of this packet, contact the East Texas State Fair, 2112 W. Front Street, Tyler, TX 75701 or phone (903)597-2501 or FAX (903)592-0692.

NOTE: This idea is spreading to the West. Ventura County, California is sponsoring an academic rodeo beginning in 1996.

A LITTLE INFORMATION ABOUT THE FOUNDING OF TRIPLE Q QUESTIONS

Triple Q Questions was founded in 1990 by Rick and Regina Allen, a husband and wife team. For several years, Regina was the scholar bowl coach at Southeastern Illinois Community College in Harrisburg, Illinois. She led the team to many state and regional titles during her tenure there. When the company was founded in 1990, Regina left the active world of quiz bowl coaching, but took on a much more active role in the quiz bowl world. Triple Q Questions began quite small, but the question writing was fast and furious. Over the years the product line has grown from packets of practice and competition questions to include practice books of questions, diagnostic software, an electronic lockout system, and now the Triple Q Questions Academic Gazette. Customized work has also brought new opportunities and challenges. Over the years, our questions have been used in several state, regional, and national tournaments, by television stations, and even in some prisons. While the business was once operated with a huge copier in the kitchen (we are not kidding!), it now occupies its own office connected to our home.

The Triple Q family has grown also. We currently have two employees - Mary and Carol. (You may speak to one of them when you call). We also like to include Joanna, age 5, and Julianna, age 7 months. They contribute a lot to the business as well (even if it is just staying out of the way!)

What else do we do? NOT MUCH, who has time? Seriously, Regina teaches Economics part-time for a local college, is on the local school board, and takes care of the kids. Her hobbies include gardening and being outside. Rick's college background was in History. He works in the health insurance field and enjoys genealogy as his main hobby.

QUIZ DOCTOR & QUIZ DOCTOR JUNIOR

Quiz Doctor is a computer software package which **SIMULATES ACTUAL QUIZ BOWL PLAY** using a mouse. Players are tested one at a time at random on science, mathematics, social sciences, language arts/literature, and general knowledge. A moderator reads the questions and enters whether the student's response was correct or incorrect. Then **QUIZ DOCTOR** tallies the result. At the test's completion, the **RESULTS ARE DISPLAYED** in **AN-EASY TO READ FORMAT FOR THE COACH**. The results can be printed and/or saved for future reference.

Each **QUIZ DOCTOR** disk consists of **EIGHT TEST BANKS OF 100 QUESTIONS EACH**. Both Varsity and Junior Varsity disks are available. Complete instructions are included with each order.

System requirements include an IBM compatible personal computer with hard drive and DOS 3.0 or higher. A mouse driver is recommended to most closely simulate real quiz bowl action.

We **KNOW OF NO OTHER SUCH DIAGNOSTIC TOOL** available to Quiz Bowl Coaches. Other software packages merely test a student's ability to choose from a group of multiple choice answers. **QUIZ DOCTOR** software **AIDS THE COACH** in **CHOOSING** and **DEVELOPING** his or her team. Used properly, it can give you a **COMPETITIVE EDGE**. **QUIZ DOCTOR CAN HELP THE QUIZ BOWL COACH:**

- select the **BEST** players for the team
- determine the areas in which the team needs **IMPROVEMENT**
- **DEVELOP STRATEGIES** for team improvement
- determine areas in which each team member should **CONCENTRATE**
- determine **WHICH PLAYERS SHOULD START**
- **ANALYZE** the team as individuals and as a whole
- determine curriculum areas in which to **SOLICIT GOOD STUDENTS**
- help your team members **GAIN CONFIDENCE** in their own abilities

SPECIAL OFFER

Triple Q Questions is offering a 10% discount off the Quiz Doctor and/or Quiz Doctor Junior to all subscribers of the Triple Q Questions Academic Gazette. You may purchase the Quiz Doctor and/or Quiz Doctor Junior at a \$6 savings! To take advantage of this offer, you must order before October 15, 1996. Simply mention the offer when completing the enclosed order form or calling us at (618)949-3888. You must be a subscriber to the Academic Gazette to receive this discount.

VARSITY QUESTIONS

1. Q. What chemical element has an atomic weight of 12 amu?
A. carbon
2. Q. In 1642, Rembrandt painted a group of volunteer militia men. Name this famous painting.
A. Night Watch
3. Q. What trig function is represented by the formula the length of the side opposite the hypotenuse all over the length of the hypotenuse?
A. sine
4. Q. Name this economic idea advocated by Adam Smith who believed that the government should stay out of business.
A. laissez-faire
5. Q. Crime and Punishment is a novel by what Russian author?
A. Feodor Dostoyevsky
6. Q. What cellular organ is responsible for protein synthesis?
A. ribosomes
7. Q. In the Bible, who is the mother of Solomon?
A. Bathsheba
8. Q. What is x equal to in the following equation: $4x$ minus 15 equals 21?
A. x equals 9
9. Q. What body of water lies between India and Burma?
A. Bay of Bengal
10. Q. The two spies agreed to rendezvous at midnight. Spell the word rendezvous.
A. R-E-N-D-E-Z-V-O-U-S
11. Q. A 35 kilogram block achieves an acceleration of 2.5 meters per second squared. What force was applied to this block in newtons?
A. 87.5 Newtons
12. Q. Name the composer of such works as Madam Butterfly and The Girl of the Golden West.
A. Giacomo Puccini
13. Q. What is the distance between the points (3,4) and (2, -8)?
A. square root of 145
14. Q. Name the religious leader that overthrew the Shah of Iran.
A. Ayatollah Ruhollah Khomeini
15. Q. Name the Edgar Lee Masters work set in an Illinois village which presents a series of poetic epitaphs.
A. Spoon River Anthology
16. Q. On a weather map this line connects points of equal barometric pressure. Name it.
A. Isobar
17. Q. What Looney Tunes character always thinks he saw a "puddy tat"?
A. Tweety Bird
18. Q. What is the value of 5 factorial?
A. 120

VARSITY QUESTIONS

19. Q. Which amendment to the United States Constitution changed inauguration day to January 20th?
A. Twentieth Amendment
20. Q. What Vanderbilt alumni wrote the novel ALL the King's Men?
A. Robert Penn Warren
21. Q. What is the chemical formula for rust?
A. Fe two O three
22. Q. What is the companion property to Boardwalk in the game of Monopoly?
A. Park Place
23. Q. What is the slope of a line drawn between the points (9,7) and (-6, 1)?
A. 2/5
24. Q. What army did the Greek forces defeat at the Battle of Marathon in 490 B.C.?
A. Persian army or the army of Darius I
25. Q. What Beckett Nobel prize winning play centers around two tramps?
A. Waiting for Godot
26. Q. What planet in our solar system takes 165 years to orbit the sun?
A. Neptune
27. Q. What super hero transforms himself from Billy Battson by uttering the word SHAZAM?
A. Captain Marvel
28. Q. What theorem states that the square of the length of the hypotenuse of a right triangle is equal to the sum of the squared lengths of the legs?
A. Pythagorean theorem
29. Q. What Civil War general stated about the United States presidency, "If nominated, I will not run; if elected I will not serve?"
A. William Tecumseh Sherman
30. Q. Plays are broken down into these, while they are divided into scenes. What are they?
A. acts
31. Q. What vascular tissue carries water and nutrients downward toward the roots in plants?
A. phloem
32. Q. Name the Greek goddess of the arts and wisdom.
A. Athena
33. Q. What is the fifth root of 32?
A. 2
34. Q. What 18th century movement was also called the Age of Reason?
A. Enlightenment
35. Q. Which of the following words is the closest synonym of the word abate: increase, argue, reduce, or repel?
A. reduce

VARSITY QUESTIONS

36. Q. If you start out with a methane molecule and substitute chlorine atoms to replace three of the hydrogen atoms on the molecule, what is the common name for the anesthetic that results?
A. chloroform
37. Q. This Greek word for love when applied to Christianity means a man's love for his God or God's love for man. What is the word?
A. Agape
38. Q. Solve for x in the following equation: $6x$ plus 8 equals x minus 7.
A. x equals negative 3
39. Q. What United States Vice President resigned in the early 1970's under the charges of bribery and extortion?
A. Spiro T. Agnew
40. Q. What American poet is known for such poems as "Mending Wall" and "Birches"?
A. Robert Frost
41. Q. How many degrees Celsius is 300.15 degrees Kelvin?
A. 27 degrees
42. Q. In 1957 this motion picture won a Best Actor Oscar for Alec Guinness. Name the film dealing with P.O.W.s.
A. The Bridge on the River Kwai
43. Q. What is the area of a circle, to the second decimal place, with a radius of 4 centimeters?
A. 50.24 square centimeters
44. Q. What document was King John compelled to sign at Runnymede on June 12, 1215?
A. Magna Carta (Magna Charta)
45. Q. What Jean Giraudoux work deals with the poor folk of Paris and a group of unscrupulous businessmen?
A. The Madwoman of Chaillot
46. Q. Which of the following is not a scalar quantity: time, energy, acceleration, or volume?
A. acceleration
47. Q. How many time zones are there in the continental United States?
A. four
48. Q. Simplify the following exponential equation: b to the fifth power times b to the eighth power.
A. b to the thirteenth power
49. Q. This state was once known as the "dark and bloody ground". What state did Daniel Boone first visit in 1767?
A. Kentucky
50. Q. This French phrase has come to mean the feeling that one has been somewhere or in the same situation before. Name this phrase.
A. deja vu
51. Q. If you have a DOS operating system, what does DOS stand for?
A. Disk Operating System
52. Q. The Green Bay Packers won the Super Bowl in 1967 and 1968. What player was selected as Super Bowl MVP both years?
A. Bart Starr

VARSITY QUESTIONS

53. Q. What is the greatest common factor for the equation $9x$ plus $12x$ cubed?
A. $3x$
54. Q. Besides Thomas Jefferson and John Adams, what United States president died on Independence Day?
A. James Monroe
55. Q. What author went by the pen name Diedrich Knickerbocker?
A. Washington Irving
56. Q. What is the southernmost latitude reached directly overhead by the sun during the winter solstice?
A. Tropic of Capricorn or 23 and $1/2$ degrees south
57. Q. What entertainer wrote the book The Man in Black?
A. Johnny Cash
58. Q. What type of geometric figure does the following equation represent: $2x^2$ plus $2y^2$ equals 16 ?
A. circle
59. Q. This island nation lies in the China Sea off the coast of Asia. Name this republic whose capital is Taipei.
A. Taiwan
60. Q. Spell the word they're as used in the following sentence. They're coming with us.
A. T-H-E-Y-apostrophe-R-E
61. Q. What unit of energy is equal to approximately 4.18 joules?
A. calorie
62. Q. What is the Greek equivalent of the Roman god Mars?
A. Ares
63. Q. What is the next element in the following sequence of numbers: $2, 4, 7, 11, 16, \dots$?
A. 22
64. Q. The original Woodstock music festival took place in what year?
A. 1969
65. Q. Of what author did Abraham Lincoln say "So you are the little woman that started this war?"
A. Harriet Beecher Stowe
66. Q. This term in physics is used to represent the rate of vibration of a wave. Name this term measured in hertz.
A. frequency
67. Q. In 1996 this movie was nominated for a Best Picture Oscar. Name this movie with a swine for a star.
A. Babe
68. Q. One radian is equal to how many degrees?
A. 180 degrees
69. Q. What band of persecuted French Protestants started such towns as New Rochelle and New Paltz?
A. Huguenots

VARSITY QUESTIONS

70. Q. James Fenimore Cooper wrote five novels known as The Leatherstocking Tales. Which of these novels deals with the death of the hero Natty Bumppo?
A. The Prairie
71. Q. What is the chemical formula for Lead sulfite?
A. PbS
72. Q. The new sport of velocipeding was imported from France in 1868. To what modern sport does velocipeding correspond?
A. cycling
73. Q. If a clock reads 1:00, what is the smallest degree measurement represented by the angle between the hands of the clock?
A. 30 degrees
74. Q. It gained its independence from Mexico in 1836. Name this 28th U.S. state.
A. Texas
75. Q. I saw a malaguena in Spain. Is the malaguena a movie, a dance, a church, or a historical painting?
A. a dance
76. Q. A Polish explorer found an undiscovered breed of wild horse in Mongolia in 1880. Name the breed of horse.
A. Przewalski's horse (yellow-brown Mongolian wild horse)
77. Q. The name of this instrument comes from the Italian word for almond. Name this stringed instrument.
A. mandolin
78. Q. Give the number of seconds in a day in scientific notation.
A. 8.64 times 10 to the fourth power
79. Q. Name the saint that founded the Jesuits or the Society of Jesus.
A. Saint Ignatius Loyala (Saint Ignatius)
80. Q. What Englishman's novels include A Room with a View, Howard's End, and A Passage to India?
A. E. M. Forster (Edward Morgan Forster)
81. Q. Cyanocobalamin is the chemical name of what vitamin?
A. Vitamin B12
82. Q. Name the actor that won best-actor Oscars for On the Waterfront and The Godfather.
A. Marlon Brando
83. Q. Lines in a plane that do not intersect are considered to be what type of lines?
A. parallel lines
84. Q. What is the capital of the Central African Republic?
A. Bangui
85. Q. What puritan minister wrote Memorable Providences Relating to Witchcraft and Possession in 1689?
A. Cotton Mather
86. Q. By what common name is acetylsalicylic acid known?
A. aspirin
