Triple Q Questions  
Academic Gazette

### **Publication Information:**

Triple Q Questions Academic Gazette is published monthly from September to May by Triple Q Questions, a national quiz bowl supply company. Subscription price is \$95 per year with all subscriptions running from September to May.

All material, including all questions, published in the Triple Q Questions Academic Gazette is protected by copyright.

### **Solicitation of Articles:**

Triple Q Questions encourages experienced quiz bowl coaches and other professionals to submit articles for publication in the Academic Gazette. All articles must be on topics related to quiz bowl or academic excellence. There are a variety of methods quiz bowl is administered across the nation and we believe the Gazette can become a forum for ideas and information sharing.

Articles may be submitted for publication to Triple Q Questions, P.O. Box 305, Vienna, IL 62995-0305 OR faxed to (618)949-3888. You may also e-mail information to [RAllen1072@aol.com](mailto:RAllen1072@aol.com).

Triple Q Questions is currently seeking experienced quiz bowl professionals who wish to write articles on a semi-regular basis. All interested parties should contact us at the address, phone number, or e-mail address above.

Articles published in the Triple Q Questions Academic Gazette do not necessarily reflect the views or opinions of Triple Q Questions or its owners.

All material published in the Triple Q Questions Academic Gazette, including all questions, are protected by copyright.

### **SEND US YOUR INFORMATION!!!!**

**If you have information on an invitational tournament, results of a tournament, convention, educational opportunity, or other activity which would be of interest to others in the realm of quiz bowl, please send these items to us.**

2<sup>nd</sup> place - Lee's Summit North High School

**University of Missouri at Rolla Invitational, Oct. 26**

1<sup>st</sup> place - North Kansas City High School  
2<sup>nd</sup> place - Savannah High School

## QUIZ BOWL BEYOND HIGH SCHOOL

by Regina Allen

Many students participate in scholar bowl on the high school level but what happens after graduation? Is that it? Far from it! Scholar bowl is alive and well at the college and university level.

My first experience with scholar bowl coaching was on the junior college level. Many of my students were old pros at this "sport of the mind" from high school programs.

At the university level, College Bowl is the name of the game. The game format is standard nationwide. The high school formats currently vary from state to state. College Bowl has a standard procedure for selecting a team and has established regional and national championships. Scholar bowl on the university level has been going on for decades. It is played with a time limit and deductions are taken for wrong answers on early buzz-ins. The game is played with tossups followed by bonus questions ranging in value from 20 to 30 points.

The format for the junior college bowl teams may vary a bit. Unlike the universities, most junior (or community) colleges cannot select a team as instructed by the College Bowl organization. Participating universities form teams from the student body and have a playoff. The winning team then represents the university at the College Bowl competitions.

In my junior college experience, I found I had to recruit students much like a high school team. I would inquire with the instructors of the various academic disciplines to find the "shining stars." Sometimes interested students would look me up!

The dynamics of my teams were very different from the typical high school team. The majority of the team usually consisted of former high school stars. The exciting element was always the returning students who added depth and experience. My younger members soon became very aware of the great amount of knowledge the older students brought to the squad.

## QUIZ BOWL BEYOND HIGH SCHOOL continued

During my yearly league play, one of the teams that caused us to compete at our highest level of efficiency consisted of traditionally more mature students. A team consisting of such narrow age ranges presented its own unique set of problems. The younger members were usually quick enough on the buzzer but lacked the depth for the harder bonus questions. This meant they had to work harder as a team and defer the bonus questions to their more knowledgeable counterparts. The more mature adult team members were sometimes more reluctant to buzz in and would not usually give information with confidence. It usually only took one competition for the younger team members to start relying more on their knowledge and experience.

College Bowl or scholar bowl, the game essentially stays the same. It pits mind against mind and intellect against intellect.

For your high school students looking to continue their scholar bowl career at the university or college level, have them inquire about possible scholarship opportunities early.

Scholar bowl does not have to end at high school graduation!

## SPECIAL OFFER!! For Academic Gazette Subscribers

As you know, each month Triple Q Questions offers a special reduced price on some of its products only to Academic Gazette Subscribers. This month you may purchase either of our two Varsity Bonus Books for only \$20 each.

Each Varsity Bonus Book has 606 multiple part questions on a wide variety of topics. Take one at \$20 or both at \$40. Please add shipping and handling charge of \$3.50. This offer is valid only for orders received on or before December 15, 1996 by verified Academic Gazette subscribers. You must mention this offer when ordering.

Triple Q Questions, P.O. Box 305, Vienna, IL 62995-0305.

Phone or fax orders accepted with Purchase Order or credit card information at (618)949-3888. Bonus Questions at these prices are practically unheard of!!!

## CONVENTION UPDATES

### KENTUCKY

On September 26 - 28, 1996, the Kentucky Academic Association (KAA) hosted its annual convention. KAA is the sponsor of the Governor's Cup Competition which is now in its 12<sup>th</sup> year. KAA has over 950 member schools and over 25,000 students participating in Governor's Cup competitions.

At this year's convention, seventeen exhibitors displayed their academic wares at the Executive West Hotel in Louisville, Kentucky. A total of 790 attendees were greeted with displays of a variety of educational items such as electronic buzzer systems, supplemental classroom materials, books, support material, educational games and software, practice and competition packets, and gift and fund-raising items.

Several workshops were offered. Topics included coaching techniques, scheduling practices, computer statistics, coordinating academic banquets and awards ceremonies, up-coming tournaments, and repairing buzzer systems. In addition, certification sessions for coaches were held.

Many of the attendees represented elementary and middle schools, a rapidly expanding area of academic quiz bowl. Watch out, varsity coaches, they are right behind you!!

## CONVENTION UPDATES

### MISSOURI

On August 8<sup>th</sup>, the Missouri Academic Association (MAA) held its annual convention in Jefferson City. There were approximately 100 - 110 attendees and 12 vendors. A total of six workshops were held on the following topics:

- Study Information Sources: Materials
- Holding a Summer Retreat with your Team
- New Coaches
- Hosting a Tournament
- Sharing Ideas
- Demonstration: A Coaches' Game

There was also a panel discussion of winning coaches and door prize drawings for attendees.

## OTHER CONVENTIONS

We are aware of annual conventions held in Georgia, Oklahoma, and Kansas. In addition there is an annual Arkansas Gifted and Talented Educators (AGATE) convention in February which draws a large crowd. If you are aware of any other quiz bowl convention, please let us know. We would like to feature information on it in an upcoming Academic Gazette.

## VARSITY QUESTIONS

1. Q. What Mattel toy figure is paired with Keiko the killer whale?  
A. Barbie
